THIS IS SPIETH

CRAFTSMANSHIP MADE IN GERMANY SINCE 1831

At SPIETH Gymnastics, our foremost commitment is to enhance the learning process and ensure the safety of athletes performing high-level routines. Safety is the bedrock of our equipment development, driving our reputation for **premium quality standards**. Our relentless dedication to making gymnastics safer empowers athletes at all levels to train and compete more confidently. **Their needs are at the heart of every product we design.**

All our competition equipment bears the coveted **FIG certification**, a testament to our unwavering adherence to the International Gymnastics Federation's (FIG) stringent quality standards.

SPIETH is renowned in the gymnastics community for our unwavering commitment to four core principles:

1. **Effort-saving:** Our equipment features motion-supporting structures, making training and competing more efficient for athletes.
2. **Safety:** We carefully select and utilize only the finest materials, ensuring the utmost safety for gymnasts.
3. **Dynamics:** Our equipment is designed with adjustability in mind, allowing athletes to fine-tune various parameters to their advantage.
4. **Consistent High-quality:** We maintain rigorous oversight of processes and materials, ensuring consistent excellence in our products.

**“USING SPIETH EQUIPMENT MEANS THE ATHLETES CAN RELY 100%
ON THE EQUIPMENT TO FOCUS COMPLETELY ON ACHIEVING THEIR
PERSONAL BEST PERFORMANCE.”**

These principles collectively translate into significant safety advantages for gymnasts, affording athletes the peace of mind needed to push their talent to new heights, according to SPIETH's slogan: REACH THE MAXIMUM.

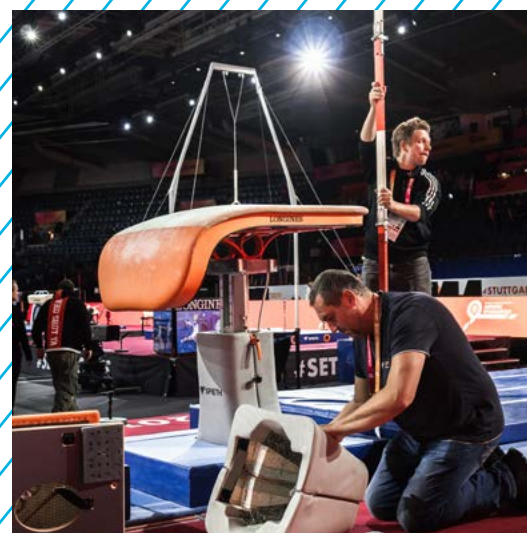

With over a century of experience, SPIETH has been a trusted partner in supplying equipment and expertise to a multitude of events. We've been honored to contribute to **12 Olympic Games**, approximately **90 World and European Championships**, as well as numerous Continental Games, World Cups, and National Championships. Each event is unique, and we take great pride in being part of it with our SPIETH gymnastics apparatuses and service teams. We are continually delighted when organizing committees place their trust in us, reinforcing our commitment to excellence in gymnastics.

VAULT

COMPETITION ACCESSORIES

ACCORDING TO FIG

- 1565802 Set of Landing mats "Moscow" for Vault
600 x 250 x 20 cm (National competitions)
- or
- 1565807 Set of Landing mats "Basic" for Vault
600 x 250 x 20 cm (National competitions)

Optional:

- 1566602 Set of Landing mats "Moscow" for Vault
600 x 300 x 20 cm (International competitions)
- or
- 1565808 Set of Landing mats "Basic" for Vault
600 x 300 x 20 cm (International competitions)
- 1540500 Soft mat "Happy Landing" 600 x 200 x 10 cm
- 1407235 Run-up and jumping device
- 1411714 Springboard "Moscow 8"
- 1411704 Springboard "Moscow 5"
- 1595310 Rondat mat
- 1540550 Hand safety mat
- 1389153 Magnesia stand "Munich"
- 1389161 Magnesia bowl for feet

Necessary only for warm-up and training:

- 1540510 Soft mat "Happy Landing" 200 x 200 x 10 cm

TECHNICAL DETAILS

- Easy height adjustment with gas springs between 100 - 140 cm in 5 cm increments
- Built-in transport system with four swivel wheels
- Base: 110 x 94 cm
- Height adjustment is on the side for higher security
- A well-balanced combination of steel springs and foam buffers

+ Proven spring system

+ Simple height adjustment

VAULTING TABLE "ERGOJET RIO"

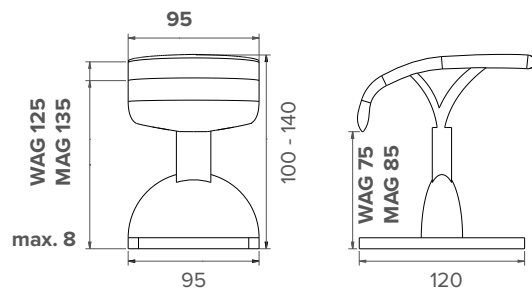

- **FIG certified, ORIGINAL REUTHER**

- The further developed spring system provides improved resilience and optimized stability at the middle and the back end of the surface
- Height adjustment with gas springs from 100 - 140 cm in increments of 5 cm
- Surface consisting of 2-fold fiberglass reinforced plastic and an integrated resilience system
- High Padding for excellent safety
- The transport system is included
- Weight without safety padding: 135 kg
- Floor surface required: 110 x 94 cm

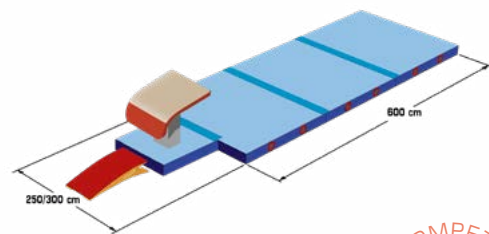

[1407210](#)

height adjustment 100 - 140 cm

+ FIG SPECIFICATIONS

+ COMPETITION MAT SET

COMPETITION EQUIPMENT

RUN-UP AND JUMPING DEVICE

- It consists of a run-up track made of special foam material with high-quality needle-felt, a non-slip support for the springboard and a jumping device for the vaulting table with a passage for the tensioning chain
- The three parts are securely connected by hook and loop tape
- Total length: 25 m long, 1 m wide, 25 mm thick
- Includes a roll-up core and a measuring tape

[1407235](#)

25 x 1 m

RONDAT MAT

- U-shaped safety mat for a competition springboard
- Surrounds the springboard on three sides
- High-density foam with a reinforced PVC cover
- Height behind the springboard: 22 cm

[1595320](#)

SHORT 120 x 102 x 22 cm

[1595310](#)

LONG 140 x 120 x 22 cm

RUN-UP TRACK

A 25 m run-up track made of special foam material with high-quality needle-felt (25 mm), without a jumping device with a roll-up core.

[1884128](#)

25 x 1 m only Run-Up Track

HAND SAFETY MAT

- Soft mat for round-off entries to reduce the impact on wrists
- Also suitable for methodical training on the Vault
- Hook and loop strips underneath to fix to the run-up
- Easy to clean (PVC)

[1540550](#)

dimension: 120 x 100 x 3 cm

BASE PADDING

- Included in the mat set
- Needle-felt surface

SOFT MAT "HAPPY LANDING" WITH MARKING OF LANDING ZONE

- Soft mat 600 x 200 x 10 cm with marking lines for the landing zone (Vault)
- Cover made of easy-to-clean PVC with zipper
- Anti-slip surface
- Reduces impact on landings
- Mandatory for all FIG competitions

1540500	600 x 200 x 10 cm with marking lines for landing zone Vault
-------------------------	---

SPRINGBOARD "MOSCOW 8"

- Competition springboard, hard version
- Equipped with revolutionary "Whisper Spring System"
- With 8 steel springs

1411714	For detailed information see page 58
-------------------------	--------------------------------------

SPRINGBOARD "MOSCOW 5"

- Competition springboard, soft version
- Equipped with revolutionary "Whisper Spring System"
- With 5 steel springs

1411704	for detailed information see page 58
-------------------------	--------------------------------------

SET OF LANDING MATS VAULT

- FIG certified
- Set of Landing mats for (international) competitions on Vault
- Additional edge stabilization and durable velour surface
- The hand grips also provide necessary air circulation, thus ensuring optimal damping during landings
- Homogeneous landing area
- Base padding for the Vaulting Table is included (art. 2240706)

1566602	"Moscow" 600 x 300 x 20 cm
1565808	"Basic" 600 x 300 x 20 cm (PVC)

SET OF LANDING MATS VAULT (NATIONAL)

- FIG certified
- Same as the mat set 1566602 but with the dimension 600 x 250 x 20 cm
- For national competitions
- Base padding for the Vaulting Table is included (art. 2240706)

1565802	"Moscow" 600 x 250 x 20 cm
1565807	"Basic" 600 x 250 x 20 cm (PVC)

OVERVIEW OF COMPETITION MATS AND SET OF LANDING MATS ON [PAGE 62-65](#).

VAULTING TABLE FOAM

- Made of hard foam with PVC coating
- Divided into three parts: two module parts are 25 cm and 50 cm high and one is semi-circular and 50 cm high, which is adapted to the shape of a vaulting tabletop
- The top surface is made of anti-slip artificial leather
- Base 90x75 cm
- All parts are connected by hook and loop tape
- Overall height is variable: 50, 75, 100 or 125 cm

1407164	A - 50 cm
	B - 25 cm
	C - 50 cm

ADDITIONAL FOAM BLOCK

- Matching additional module for Vaulting Table Foam (art. 1407164)
- 40 cm height
- Connectable with 1407164

4172705	90 x 75 x 40 cm
-------------------------	-----------------

VAULTING TABLE "ERGOJET CLUB"

- Push-off area similar to the competition vaulting table of approx. 95 x 120 cm
- Easy adjustment of height using a gas-loaded spring in steps of 5 cm from 90 to 135 cm
- The cover is made of hygroscopic synthetic leather and is fixed to the upper part of the vaulting table using hook and loop tape, which assures its easy replacement
- Including integrated transportation wheels and protective padding of pillars

1407174	height adjustment: 90 - 135 cm
-------------------------	--------------------------------

VAULTING TABLE "ERGOJET JUNIOR"

- Mini vaulting table adapted to the height of children and young people
- The smaller version of the equipment allows children to gain experience in jumping with less fear
- Quick and easy height adjustment
- Sturdy, hard-wearing rubber caps
- Fine adjustment and castors included
- Surface dimension: 90 x 72 cm

1407198	height adjustment: 85 - 135 cm
-------------------------	--------------------------------

VAULT ACCESSORIES

PVC PROTECTION COVER

- Blue cover made of PVC applies as dust protection and to transport it safely
- Quick and easy to fit with elastic straps

[1407203](#)

suitable for "Ergojet" and "Ergojet Rio"

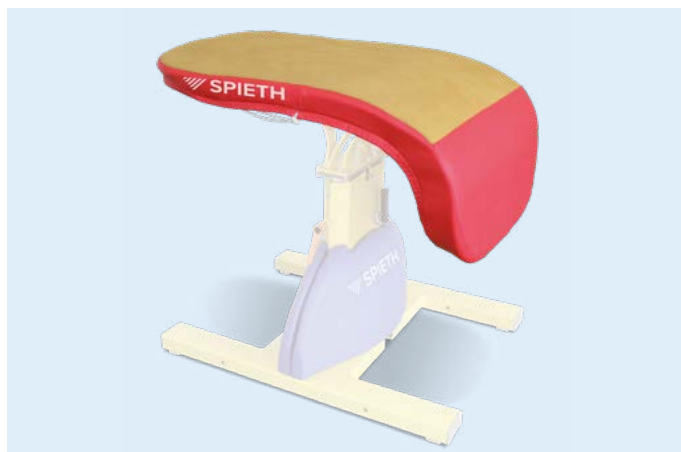

FLEECE COVER FOR "ERGOJET"

- Original fleece cover to put onto the worn body of the vaulting table
- Fixation using an integrated belt system
- It can be applied both to protect your new vaulting table over time against natural wearing out or to cover already worn-out upper part

[4510260](#)

for "Ergojet"

FLEECE COVER FOR "ERGOJET RIO"

- Original fleece cover for Vaulting Table "Ergojet Rio"
- Fixation using an integrated belt system
- Topstitched on edges
- Protects "Ergojet Rio" from wear and covers more minor damages on the surface

[4510269](#)

for "Ergojet Rio"

FLOOR

COMPETITION ACCESSORIES

ACCORDING TO FIG

- 1389153 Magnesia stand "Munich"
- 1389161 Magnesia bowl for feet (2x)

Necessary only for warm-up and training:

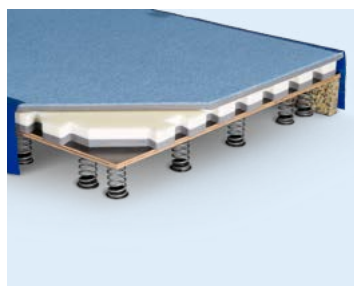

- 1540510 Soft mat "Happy Landing" 200 x 200 x 10 cm

TECHNICAL DETAILS

- 74 water-resistant, 15 mm coated plywood panel with tempered steel springs
- There are 50 elements in size 120 x 240 cm, 20 elements in size 100 x 240 cm, 4 elements in size 100 x 100 cm
- 196 puzzle-shaped foam pieces (50 mm high)
- 7 rollable mats with special foam and needle-felt cover each 14 x 2 m x 20 mm
- Rollable mats are connected by 6 hook and loop tapes
- 4 white straps for marking the competition area
- Height: 20 cm

THE ELASTIC SWING FLOOR IS ALSO AVAILABLE IN INDIVIDUAL DIMENSIONS. PLEASE CONTACT US FOR FURTHER INFORMATION.

+ Tempered steel springs

+ Multilayer construction

FLOOR

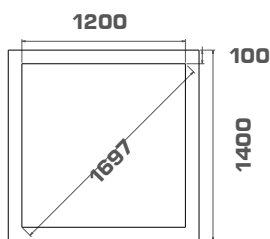

ELASTIC SWING FLOOR "MOSCOW"

- **FIG certified, ORIGINAL REUTHER**

- High-quality competition floor with a three layer composition
- Substructure with a unique spring system for maximum dynamics and superior comfort
- Provides the optimal balance between bouncing characteristics during take-off and shock absorption during landings
- Made of high-quality finished water-resistant coated plywood (FSC)
- 2.320 high-quality tempered steel springs carefully positioned for optimal dynamic properties
- Resilient coupling strips, improved tongue and groove system, together with a system of 24 tension straps to lock the sections in their positions, providing a perfect homogeneity over the entire surface
- Dynamic surface: 14 x 14 m
- Competition Area: 12 x 12 m

1790751	completely assembled (ready to use)
1790752	partially assembled (Springs need to be attached into the spring holders - transportation volume is significantly reduced)

ALSO SUITABLE FOR
ACROBATIC AND CHEERLEADING
COMPETITIONS

COMPETITION EQUIPMENT

FLOOR TUMBLING TRACK

TUMBLING TRACK “MOSCOW”

- Same composition as FIG certified Elastic Swing Floor “Moscow”
- Water-resistant, coated plywood panels
- Spring system made of tempered steel
- Puzzle-shaped foam pieces, each 100 x 100 x 5 cm
- Special rollable mat with needle-felt in SPIETH-blue
- Height ca 20 cm
- Dimension single element: 200 x 120 cm
- Also available in different lengths and delivery alternatives:

assembled

1790764	12 m, 10 elements
1790766	14 m, 12 elements
1790765	18 m, 15 elements

partially assembled

1790762	12 m, 10 elements
1790770	14 m, 12 elements
1790760	18 m, 15 elements

Individual lengths (as a multiplier of 1.20 m) are available on request!

TUMBLING TRACK “STUTTGART”

- Composition with plywood panels connected by hook and loop strips to lower panels with elastic foam pieces
- One element is 122 cm long and 200 cm wide
- Height ca. 12.5 cm with hook and loop tapes on the sides to attach a rollable mat
- Delivery without a rollable mat
- The SPIETH rollable mats “FLEXI-ROLL ”or “TRIFLEX ” are recommended to use (see page 17)

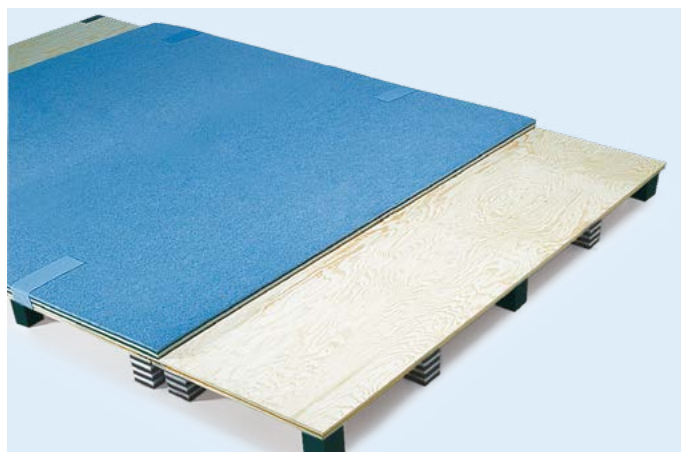

assembled

1790421	1 element, 1.22 m long
2511290	9 elements, 10.98 m long
2511292	11 elements, 13.42 m long

partially assembled

1790411	1 element, 1.22 m long
1790413	9 elements, 10.98 m long
1790415	11 elements, 13.42 m long

Individual lengths (as a multiplier of 1.20 m) are available on request!

FLOOR TUMBLING TRACK

TUMBLING TRACK "SPIETHWAY EVOLUTION"

- The new FIG certified tumbling track
- The consistent further development of the proven "SPIETHway" series offers the optimal combination between maximum rebound effect for the most demanding tumbling elements and damping of the unwanted force peaks to protect the joints in training and competition
- The overlying rollable mat composite with a durable needle-felt surface in combination with an integrated mesh fabric ensures more extended durability even during intensive use
- Metal connectors with "QuickConnect" system guarantee a stable connection of individual elements while minimizing set-up and dismantling times during events
- The track is also proven as training equipment for artistic gymnastics and acrobatics
- Tumbling tracks in individual lengths are available upon request, for example for permanent installation in gymnastics training centers
- A suitable run-up track and landing area are available separately
- TECHNICAL DETAILS
 - 21 steel frame single elements, 120 x 200 cm
 - glass fiber spring system with pressure distribution plates
 - anti-slip rubber feet
 - total height: approx. 30 cm

[1790220](#)

total length: 25.20 m

Individual lengths (as a multiplier of 1.20 m) are available on request!

LANDING AREA "SPIETHWAY"

- Suitable for Tumbling Track "SPIETHway"
- For Tumbling and TeamGym
- Dimensions: 600 x 300 x 30 cm
- With the marking of landing zones 400 x 200 cm in yellow

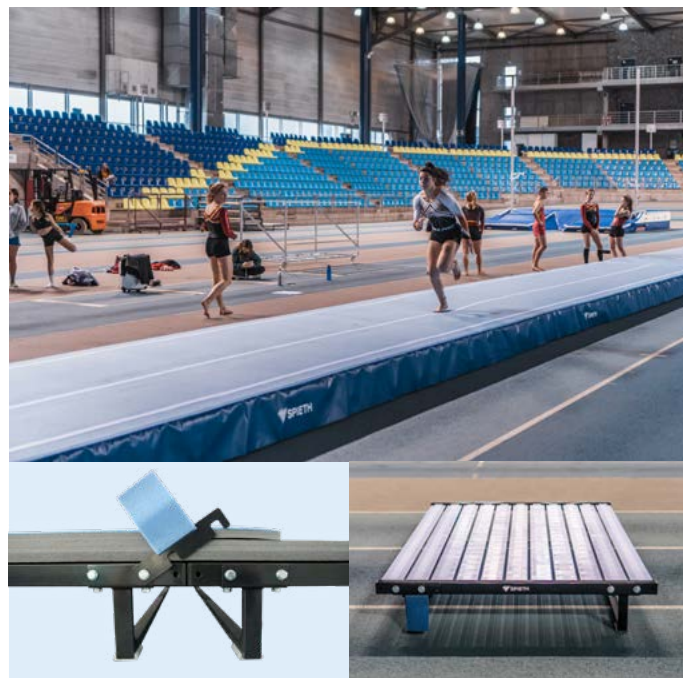

[2505124](#)

600 x 300 x 30 cm

RUN-UP TRACK

- Consisting of 5 elements, each 200 x 100 cm
- With a 25 mm rollable mat and a total height of approx. 30 cm to match the FIG certified "SPIETHway Evolution" tumbling track
- Incl. anti-slip and weight distribution elements, also suitable for installation on regular gym floors
- 5 elements (10 x 1 m) for tumbling or optionally with 10 elements (20 x 1 m) for TeamGym

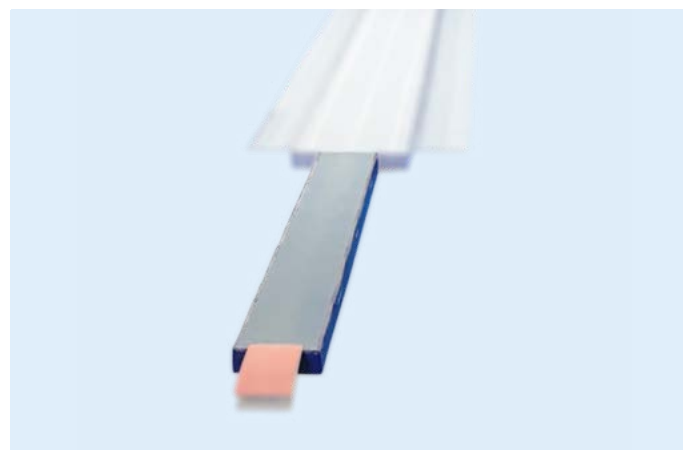

[2511266](#)

+ "QuickConnect" system

+ Glass fiber spring system

FLOOR TRAINING

AIRTRACK "MAXIMUM"

- Thanks to bonded and sealed seams the Airtrack Maximum is sturdy and durable thanks to bonded and sealed seams
- The special construction inside ensures stability and a good rebound
- Blue lines give more orientation and support the methodical training
- A versatile flat track - ideal for use in clubs, schools and kindergarten

1740124	15 x 2 x 0.2 m
1740125	15 x 2 x 0.3 m
1740123	12 x 2 x 0.15 m
1740120	10 x 2 x 0.1 m
1740121	10 x 2 x 0.2 m
1740122	10 x 2 x 0.3 m

MINI-BLOWER AIRTRACK

- Compact blower for Airtrack
- Rapid inflation and deflation
- Fitted with a thermal cut-out

1740250	230 V / 1000 W (EU)
1740251	120 V / 1000 W (USA)

LANDING MAT "HAPPY LANDING"

- Including zipper
- Dimension: 200 x 200 x 10 cm

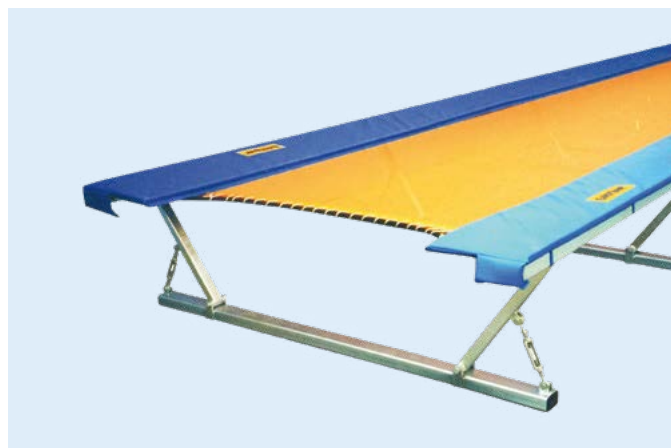

1540510	cover made of blue PVC
1540511	cover made with canvas

TRAMPOLINE TRACK

- With high rebound
- For a permanent installation in training centers
- The rebound effect and cushioning are coordinated to ensure protection of the joints
- Recommended as methodical apparatus for acrobatic series
- Width 2 m, different lengths and variations are available on request

on request	
----------------------------	--

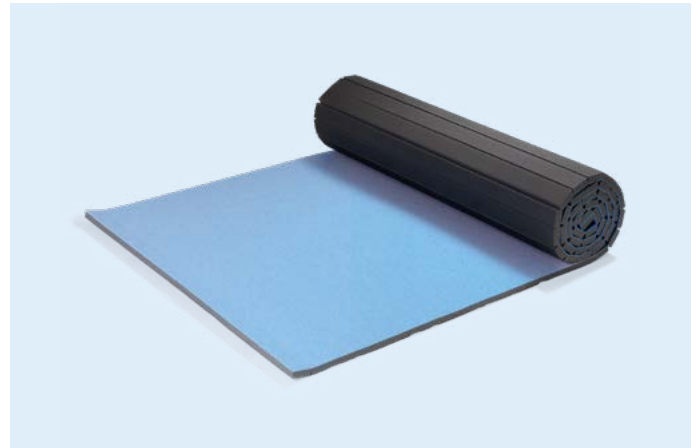

FLOOR ROLLABLE MATS

ROLLABLE MAT "FLEXI-ROLL"

- No need to turn over the mat for rolling up
- Quick and easy to use
- No roll-up core needed
- Excellent absorption characteristics thanks to 40 mm height
- Suitable for gymnastics, cheerleading, tumbling, acrobatics as well as schools, clubs and kindergarten
- The top layer is made of comfortable needle-felt carpet in SPIETH-blue

3900304	6 x 2 m, 40 mm
3900306	12 x 2 m, 40 mm
3900307	14 x 2 m, 40 mm
3900371	17 x 2 m, 40 mm
3900303	20 x 2 m, 40 mm

ROLLABLE MAT "FLEXI-ROLL" - AREA

- 7 mats 2 x 14 m, 40 mm, SPIETH-blue
- 6 hook and loop tapes each 14 m
- 2 white hook and loop rolls for marking of competition area each 25 m

1790472	14 x 14 m area made of rollable mats
-------------------------	--------------------------------------

- 6 mats 2 x 14 m, 40 mm, SPIETH-blue
- 5 hook and loop tapes each 14 m

1790471	12 x 12 m area made of rollable mats
-------------------------	--------------------------------------

ROLLABLE MAT "TRIFLEX"

- ORIGINAL REUTHER
- The top layer is made of a comfortable needle-felt carpet in SPIETH-blue
- TRIFLEX-model with multilayer special foam
- Height: 35 mm

2511225	12 x 2 m, 35 mm, with roll-up core
1884270	14 x 2 m, 35 mm, with roll-up core

ROLLABLE MAT "TRIFLEX" - AREA

- 7 mats 2 x 14 m, 35 mm, SPIETH-blue with roll-up core
- 6 hook and loop tapes each 14 m
- 2 white hook and loop rolls for marking of competition area each 25 m

2511268	14 x 14 m area made of rollable mats
-------------------------	--------------------------------------

- 6 mats 2 x 14 m, 40 mm, SPIETH-blue
- 5 hook and loop tapes each 14 m

1790470	12 x 12 m area made of rollable mats
-------------------------	--------------------------------------

FLOOR ACCESSORIES

PVC-SKIRTING “MOSCOW” FLOOR 14 X 14 M

- It serves as dust protection and provides a uniform appearance
- Dark blue skirting to surround the elastic swing floor

2511137	14 m long
-------------------------	-----------

MARKING TAPE

- For marking the competition area
- White hook and loop tape

6149320	12 m, width 50 mm
-------------------------	-------------------

7623064	per running meter
-------------------------	-------------------

HOOK AND LOOP TAPE

- For connection of the mats
- With needle-felt cover

6149430	14 m, width 96 mm
-------------------------	-------------------

7623088	per running meter (width 96 mm)
-------------------------	---------------------------------

4241617	14 m, width 140 mm

-------------------------	----------------------------------

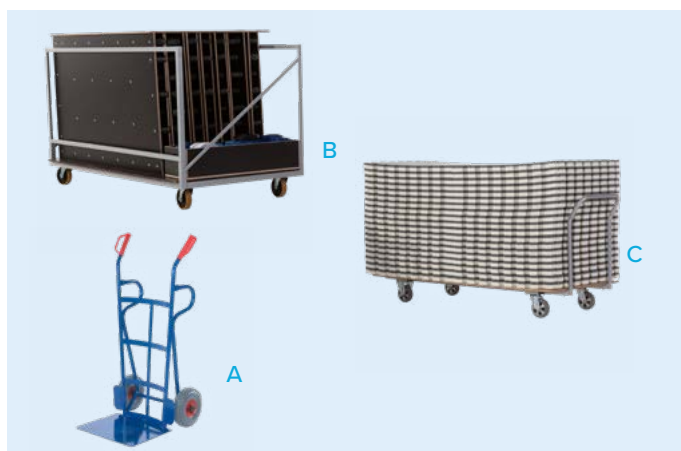

TRANSPORT TROLLEYS FOR “MOSCOW” FLOOR

1590056	A transport trolley for rollable mat
-------------------------	--------------------------------------

1590050	B transport trolley for 14 floor elements*
-------------------------	--

1522178	C transport trolley for puzzle-shaped foam pieces
-------------------------	---

*REMARK: Always store panels upright and never pile them up.

TRANSPORT TROLLEYS FOR TUMBLING TRACK “STUTTART”

- Transport Trolley suitable for 12 - 15 elements of Tumbling Track “Stuttgart”

1590094	12 - 15 elements
-------------------------	------------------

*REMARK: Always store panels upright and never pile them up.

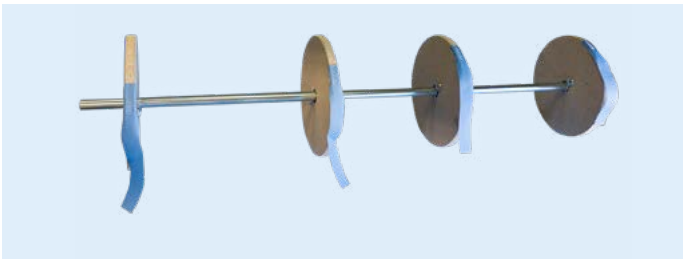

THE CORRECT STORAGE OF YOUR TUMBLING TRACK OR ELASTIC SWING FLOOR IS IMPORTANT TO PREVENT DAMAGE AND TO ENSURE LONG USE. ALWAYS STORE THEM UPRIGHT AND NEVER PILE THEM UP.

FLOOR ACCESSORIES

ROLL-UP CORE FOR ROLLABLE MATS

- Metal rod 2 m long, with wooden discs
- Attached hook and loop tape to roll up the rollable mats neatly

2511212	2 m long
-------------------------	----------

MAT TROLLEY

- Suitable for transport of max. 3 rollable mats

1590565	max. 3 rollable mats
-------------------------	----------------------

UNEVEN BARS

SPIETH

COMPETITION ACCESSORIES

ACCORDING TO FIG

- 1565812 Set of Landing mats "Moscow" for Uneven Bars
or
- 1565817 Set of Landing mats "Basic" for Uneven Bars
- 1540505 Soft mat "Happy Landing" 400 x 200 x 10 cm
- 1411704 Springboard "Moscow 5"
- 1389153 Magnesia stand "Munich"
- 1540225 Trainer support 50 x 50 x 50 cm
- 1760951 TCS (as of 2025 - one TCS per Uneven Bars)

Necessary only for warm-up and training:

- 1540509 Safety spotter mat "Happy Landing"
200 x 100 x 12 cm

TECHNICAL DETAILS

5 cm height adjustment for tall gymnasts - quick and easy thanks to the integrated extension system. This makes it possible to raise the bars by another 5 cm without loosening the tension. Using pin locks and the knob levers on the high uprights, height adjustment is basically easier.

INCL. "FIBERFLEX PRO" RAIL:

- Reworked and improved round, durable, natural fiber coated Fiberglass Rail
- The natural fiber provides excellent grip
- Preparation time for rails is on average shorter and less magnesia is necessary
- It can be washed off with water

2205315

diameter 40 mm, length 240 cm

+ Integrated extension system + Simple height adjustment

UNEVEN BARS

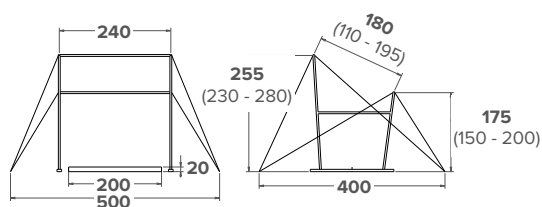

UNEVEN BARS "MUNICH"

- **FIG certified, ORIGINAL REUTHER**
- The competition Uneven Bars with new linen rails "Fiberflex Pro" and a new built-in height adjustment system
- New standard heights according to the current FIG standard: low rail 175 cm, high rail 255 cm
- With a new built-in height adjustment system in the uprights: By pushing the locking pins, the height can be adjusted e.g. for tall gymnasts (at high upright in combination with a knob)
- An adaption of the tensioning is mandatory
- With patented double tension system including 2 slide adjusters providing the individual fine-tuning of tension
- Adjustments: low rail from 150 to 200 cm, high rail from 230 to 280 cm, distance between the rails max. 195 cm

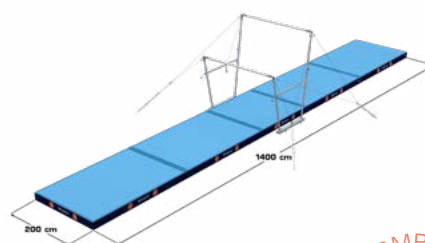

[1383220](#)

low rail: 150 - 200 cm, high rail: 230 - 280 cm

UNEVEN BARS TRAINING

UNEVEN BARS "KOMBI"

- Special design of a competition Uneven Bars for training purposes
- Thanks to the quick-lock system, it can also be used as a Horizontal Bar (1-rail module) and can easily be converted
- Two rails are included in the scope of delivery
- It is suitable for installation on pit systems
- The high rail is height adjustable in 5 cm increments between 215 - 280 cm and the low rail is height adjustable in 5 cm increments between 140 - 190 cm
- Width adjustment in 5 cm increments between 120 - 210 cm
- Suitable with Horizontal Bar rail "Club" (art. 4140705)

1383145	with "Fiberflex Pro" rails
1383128	with "Carboflex" rails [discontinued model]

FREESTANDING UNEVEN BARS "CLUB"

The Uneven Bars offer increased stability thanks to fold-out feet, simple width adjustment and height adjustment for the low and high bar.

- Supplied with SPIETH "Fiberflex Pro" rails and a built-in transport system
- The "Club" Uneven Bars can be used as a 1-bar module and with the "Club" horizontal bar (art. 4140705)
- Tensioning (art. 2203314) can be attached as an option
- Exclusive mats – The matching center mat is highly recommended to cover the metall parts correctly (art. 2240867 or art. 2241367)
- Width adjustment in 5 cm increments between 120 - 210 cm
- Height adjustment:
 - upper rail: in 5 cm increments between 215 - 280 cm
 - lower rail: in 5 cm increments between 140 - 190 cm

1383140	with "Fiberflex Pro" rails

FREESTANDING CONSTRUCTION - UNEVEN BARS

With our freestanding construction, gymnastics apparatuses can be anchored in places where anchoring is impossible. The apparatus is anchored on a steel frame with four arms and weights on each end.

This freestanding construction is suitable for the apparatuses Uneven Bars, Still Rings, and Horizontal Bar, only different amounts of weights are necessary.

For one freestanding construction a base area of around 7.5 x 6 m is necessary.

Please request the required individual amount of weights separately.

2205070	on request
-------------------------	------------

UNEVEN BARS ACCESSORIES

UNEVEN BARS RAILS - COMPETITION

A 2205315 "Fiberflex Pro"

- Reworked and improved round, durable, natural fiber coated Fiberglass Rail
- The natural fiber provides great grip
- Preparation time for rails is on average shorter and less magnesia is necessary
- Can be washed off with water

B 2204130 "Carboflex" [discontinued model]

- Round rail with wooden veneer and casted end tips

UNEVEN BARS RAILS "CLUB"

- Rails with this kind of casted end tips are suitable for Uneven Bars "Kombi" (art. 1383128) and "Club" (art. 1383124)
- Furthermore, it is compatible with the training Horizontal Bar "Club" (art. 1384094), methodical Horizontal Bar "Club" (art. 1384224) and Horizontal Bar supports (art. 1384080)

C 2205390 "Fiberflex Pro Club"

- With the same characteristics as the competition model

D 2202205 "Carboflex Club" [discontinued model]

- With the same characteristics as the competition model

E 4140705 Horizontal Bar rail "Club"

OVERVIEW UNEVEN BAR RAILS

For Uneven Bars Competition ("Munich", "Bern" & "Bern Exclusive")

A	2205315	"Fiberflex Pro"	
B	2204130	"Carboflex" [discontinued model]	

For Uneven Bars "Club" ("Kombi" & "Club")

C	2205390	"Fiberflex Pro Club"	
D	2202205	"Carboflex Club" [discontinued model]	
E	4140705	Horizontal Bar rail "Club"	

WE STRONGLY RECOMMEND REPLACING RAILS AT LEAST EVERY 3 YEARS.

UNEVEN BARS ACCESSORIES

TENSIONING FOR UNEVEN BARS "CLUB"

- Tensioning system for freestanding Uneven Bars "Club" (art. 1383124 / art. 1383140)
- Comprises cables, turnbuckles, chains and fast tensioning devices
- Provides additional stability
- Also suitable for Uneven Bars "Kombi" (art. 1383128 / art. 1383145)

[2203314](#)

CENTER MAT

- Center mat for freestanding Uneven Bars "Club"
- The Center mat can be connected to standard landing mats with hook and loop tape
- Cutouts to securely cover metal parts in the middle of the Uneven Bars
- Dimension: 225 x 85 x 20 cm

[2240867](#)

"Moscow"

[2241367](#)

"Basic" (PVC)

MATS SET FOR UNEVEN BARS "CLUB"

- Mat set for freestanding Uneven Bars "Club"
- Foldable landing mats for easy storage and transport
- The set consists of 1 center mat and 2 landing mats 200 x 200 x 20 cm connected by hook and loop
- Including 4 straps for fixation at rails in the folded position

[1566700](#)

set Landing Mats "Moscow"

[1566705](#)

set Landing Mats "Basic" (PVC)

SAFETY CUSHION ROLL

- Soft protection roll for Uneven Bars or Parallel Bars rail
- Fixation by hook and loop tape

[1383070](#)

diameter 8 cm, length 70 cm

SAFETY CUSHION

- U-shaped safety padding for Horizontal Bar, Parallel Bars and Uneven Bars
- With a handle on the short side for quick and easy slide in and out
- Cover made of blue PVC
- Easy to attach with hook and loop tape

[1760301](#)

length 140 cm

TRAINER PLATFORM "CLUB" HORIZONTAL BAR

- Height adjustable trainer platform for Uneven Bars and Horizontal Bar
- It folds up automatically by a gas spring
- Height adjustable in 10 cm increments between 137 - 197 cm
- Size of platform: 140 x 50 cm
- The trainer platform is not attached to the apparatus and thus does not influence its characteristics
- Ideal for installed training centers and pit systems
- Floor anchoring is necessary (delivery without mounting material)

[1490373](#)

4 pillars

UNEVEN BARS ACCESSORIES

LANDING MAT "HAPPY LANDING"

- Soft landing mat with PVC cover and zipper
- Available for training use with 5 cm height and according to FIG-Specifications in 10 cm height
- Mandatory landing mat with the dimension 400 x 200 x 10 cm at FIG-competitions at Uneven Bars, Balance Beam and Horizontal Bar
- Recommended to use for double-mini trampoline and tumbling

1540505	400 x 200 x 10 cm
1540515	200 x 200 x 5 cm

TRAINER SUPPORT

- Podest with hard foam and reinforced edges for a safe standing position
- Variable in use for coaches to stand on and for gymnasts to prepare the apparatus

1540225	50 x 50 x 50 cm according to FIG-Specifications
1540226	100 x 75 x 75 cm according to FIG-Specifications
1540188	75 x 45 x 60 cm

TCS-TENSION CONTROL SYSTEM

- FIG certified
- For tensioned apparatuses: Uneven Bars, Horizontal Bar, Rings
- Prevention of too low or too high tensioning thanks to the tensioning measuring device with an easy-to-read digital display
- When tensioning becomes too low or too high, it is indicated by a flashing light signal
- Per tensioned gymnastic apparatus is one tensioning control system necessary
- With NiMH batteries (AA)
- Competition accessory as of 2025

1760951	only one device needed per Uneven Bars
-------------------------	--

BALANCE BEAM

COMPETITION ACCESSORIES

ACCORDING TO FIG

- 1565842 Set of Landing mats "Moscow" for Balance Beam
or
- 1565847 Set of Landing mats "Basic" for Balance Beam
- 1540505 Soft mat "Happy Landing" 400 x 200 x 10 cm
- 1411704 Springboard "Moscow 5"
- 1389153 Magnesia stand "Munich"
- 1566080 Balance Beam Padding "Competition"

Necessary only for warm-up and training:

- 1540510 Soft mat "Happy Landing" 200 x 200 x 10 cm

TECHNICAL DETAILS

- Length: 500 cm
- Width beam surface: 10 cm
- Width beam base: 118 cm
- Height: adjustable between 75 - 125 cm in 5 cm increments
- Beam core is made of torsion-free thick wall aluminum

+ New Soft Touch technology

BALANCE BEAM

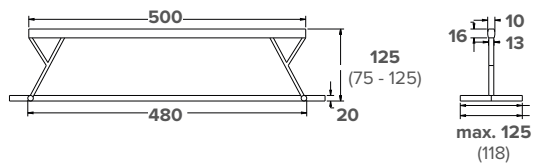

BALANCE BEAM "SOFT TOUCH"

- **FIG certified, ORIGINAL REUTHER**
- Reduced impact forces on joints thanks to new "Soft Touch" technology
- A new shape of the aluminum profile makes the Balance Beam appear optically wider
- Optimum grip and training comfort with a hygroscopic top layer
- Soft rubber endcaps provide stability and prevent floor damage
- Very stable steel legs with durable powder-coating

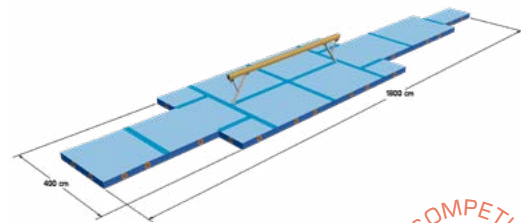

[1414210](#)

length: 500 cm

+ FIG SPECIFICATIONS IN CM

+ COMPETITION MAT SET

COMPETITION EQUIPMENT

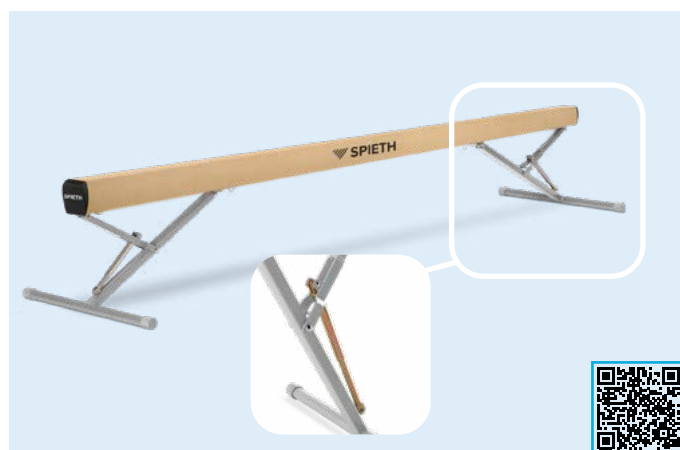

BALANCE BEAM TRAINING

BALANCE BEAM "CLUB"

- This soft, padded training Balance Beam made of aluminum profile has an additional, softer running surface under the durable synthetic leather than the competition beam
- The balance between the softer running surface and the necessary stability is optimally matched. This reduces joint stress, minimizes the risk of injury and allows for a higher training frequency
- When the height is adjusted, the feet remain in the same position so that the mats do not have to be moved
- Height adjustable between 60 - 130 cm

1414230	width of surface: 10 cm, Length: 5 m
---------	--------------------------------------

TRAINING BEAM "CLUB"

Soft training Balance Beam with special padding and curved wooden feet with a spring effect.

- This padded beam made of aluminum profile has an additional, softer running surface under the durable synthetic leather than the competition beam
- The balance between the softer running surface and the necessary stability is optimally matched – this reduces joint stress, minimizes the risk of injury and allows for a higher training frequency
- Use the beam exclusively directly on the hall floor

1414231	length: 5 m, height: 25 cm, width: 10 cm
---------	--

1414232	length: 3 m, height: 25 cm, width: 10 cm
---------	--

BALANCE BEAM BASE "GYM"

- With its wide supporting surface, this beam base is especially suitable for use on top of landing mats in training centers
- The Balance Beam body needs to be ordered separately

2204815	height: 25 cm
---------	---------------

2204820	height: 40 cm
---------	---------------

SURFACE EXPANDER 20 CM

- Surface expander for SPIETH Balance Beam
- Suitable for all SPIETH Beam versions "Barcelona" and older "Club" versions
- Preshaped for a perfect fit on the Balance Beam
- Easy to attach with hook and loop tape
- Ideal training and methodic aid
- For learning new elements

1414190	length 200 cm, width 20 cm
---------	----------------------------

1414191	length 300 cm, width 20 cm
---------	----------------------------

BALANCE BEAM TRAINING

FOAM BALANCE BEAM, 2.5 M

- Foam Balance Beam with marking in the middle of working area
- Length 250 cm, width of the working area 15 cm
- Width of the base 25cm, height 8 cm
- Total weight 8 kg
- Hook and loop on the bottom for fixation to landing mats
- With hook and loop adaption at the ends to attach further Balance Beams

1540371	250 x 15 cm / 25 x 8 cm
---------	-------------------------

ROLL-UP TRAINING BALANCE BEAM 5 M

- Roll-up, soft and elastic training Balance Beam is made of foam, which is the same length and height as a competition Balance Beam
- Ideal training equipment for home use
- Space-saving and easy to store

1414180	500 x 10 x 2.5 cm
---------	-------------------

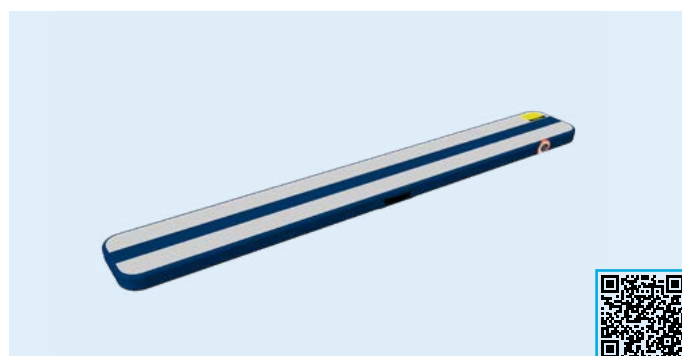

AIRBEAM

- The centre line is 10 cm wide, corresponding to the competition beam's width
- Inflated within a short time, with adjustable pressure
- Bottom side with anti-slip material
- Inclusive transport/ storage bag and repair set
- The blower must be ordered separately

1740139	300 x 40 x 10 cm
---------	------------------

1740140	500 x 40 x 10 cm
---------	------------------

MULTIMAT

- Soft safety mat with a high level of shock absorption
- It is made from high-quality memory foam which reduces the forces on the body and joints during the landing
- It has an elastic stretch cover and a good grip on one side and an anti-slip material on the other

1540620	150 x 100 x 1,5 cm
---------	--------------------

TRAINING PAD

- Balance Beam surface, made of artificial leather with original fleece cover
- Soft and stable upholstery
- Suitable for all SPIETH Balance Beam with 10 cm width
- It provides better cushioning, protects the joints and reduces the risk of injury

1414085	100 cm long
---------	-------------

1414086	200 cm long
---------	-------------

BALANCE BEAM ACCESSORIES

PADDING "COMPETITION"

- Safety padding for competition Balance Beam "Soft Touch"
- Mandatory at FIG competitions on Balance Beam
- Preshaped foam
- Soft needle-felt top layer
- Easy to fit with hook and loop tape
- 2 pieces are necessary for one competition Balance Beam

1566080	per piece
---------	-----------

PADDING "TRAINING"

- Suitable for Balance Beam "Soft Touch"
- Special padding of legs to prevent injuries - according to the latest FIG guidelines
- Easy to fit with hook and loop tape
- No need to remove the padding while adjusting the height

2511323	per pair
---------	----------

PADDING "CLUB"

- Suitable for Balance Beam "Club"
- Padding for Club Balance Beam, per leg
- Easily fitted, pre-shaped foam, soft exterior layer
- No need to remove the padding while adjusting the height

1566068	per piece
---------	-----------

COVER BALANCE BEAM - "SOFT TOUCH"

Original cover for competition Balance Beam "Soft Touch"

1414905	cover "Soft Touch"
---------	--------------------

REPAIR COVER BALANCE BEAM "BARCELONA"

- Suitable for Balance Beams with 5 m length
- This cover is a handy alternative to prolong the use of your existing Balance Beam and to cover up more minor damages in the upholstery

1490060	repair cover
---------	--------------

BALANCE BEAM ACCESSORIES

ANTI-VIRUS PVC COVER BALANCE BEAM

- This protective anti-virus cover supports your hygiene actions in the gym: the brand-new technology with integrated silver particles reduces virus transmissions
- Dust cover; offers protection during transport and storage; quick and easy to fit with hook and loop tape
- For a Balance Beams with a length of 5 m
- One cover is needed per beam

1490075	per piece
---------	-----------

i

The new PVC-technology with included silver particles reduces the presence of a virus on the surface in the following manner: 15 minutes after contact by 95%, after 60 minutes this is even up to 98%. This technology has been tested by Virhealth, a laboratory specializing in antiviral and antibacterial testing. In order to maintain the antiviral properties of the top layer, it is highly recommended to clean this surface regularly with a neutral cleanser. With proper cleaning, the top layer of the mat retains its antiviral properties up to 3 years.

PVC COVER BALANCE BEAM

- This cover protects against dust and offers protection during transport and storage
- Quick and easy to fit with hook and loop tape
- For Balance Beams with a length of 5 m
- One cover is needed per beam

1490070	ca. 500 x 16 x 18 cm
---------	----------------------

TRANSPORT TROLLEY

- Suitable for Balance Beam and Pommel Horse "Junior"
- Stable construction
- 4 ball-bearing swivel wheels
- Sturdy epoxy coating
- No sharp edges

1522084S	per piece
----------	-----------

POMMEL HORSE

COMPETITION ACCESSORIES

ACCORDING TO FIG

- 1565862 Set of Landing mats "Moscow" for Pommel Horse
- or
- 1565867 Set of Landing mats "Basic" for Pommel Horse
- 1389153 Magnesia stand "Munich"

TECHNICAL DETAILS

- Aluminum pommel with a hygroscopic anti-slip rubber
- Height adjustable between 95 - 125 cm
- Provides excellent grip
- Less magnesia for preparation is necessary

+ Competition set "Pommel Horse"

+ Aluminum pommel with a hygroscopic anti-slip rubber

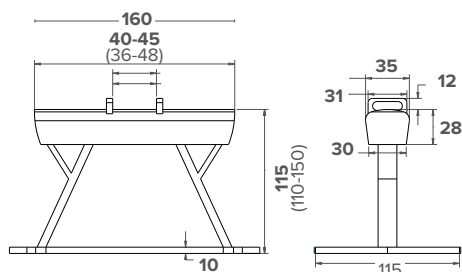

POMMEL HORSE

POMMEL HORSE

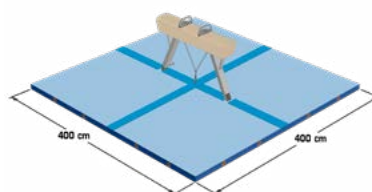

- **FIG certified, ORIGINAL REUTHER**
- Resistant corpus with a foam layer and natural leather upholstery
- 2 hygroscopic aluminum pommels
- Height adjustable between 95 - 125 cm
- Easy to transport by 4 built-in swivel wheels
- Tensioning cable and lock for floor anchoring are included
- Safety padding is available as an option (art. 1566064)

1406104	dimension corpus: ca. 160 x 35 x 28 cm

POMMEL HORSE TRAINING

POMMEL HORSE "JUNIOR"

- Downsized Pommel Horse (90%) for young gymnasts
- Facilitate the methodical transition from Mushroom to Pommel Horse
- For young gymnasts up to 14 years
- Prevents incorrect posture and injuries
- Corpus with natural leather upholstery
- Adapted size and height, grippy wooden pommels

1407068

height: 100 cm, corpus: 143 x 32 cm

COMPETITION (100 %)

"JUNIOR" (90 %)

THE PROBLEM

The dimension of the "adult" Pommel Horse present technical problems to young gymnasts leading them to unnatural positions for many skills. This causes incorrect posture and injuries (pic 1).

THE SOLUTION

The dimension of SPIETH Pommel Horse "Junior" are designed for the physique of young gymnasts. This enables them to exercise under almost the same conditions as the adult gymnasts. Training progresses faster, and young gymnasts learn the correct technique with less risk of injuries (pic 2).

FLOOR POMMEL HORSE

- Corpus of Pommel Horse with low height for training and learning new skills
- Corpus is identical to competition Pommel Horse
- Aluminum pommels are similar to competition Pommel Horse
- Wooden base with rubber elements
- Corpus with high-quality leather

1407073

height: 35 cm

POMMEL BENCH

- For methodical learning of new skills on the Pommel Horse
- Width of 45 cm (instead of 35 cm of competition Pommel Horse) to relieve shoulders
- Facilitate the methodical transition from Mushroom to Pommel Horse
- Height adjustable between 50 - 65 cm in 3 steps
- Length of corpus 136 cm: ideal for training magyars
- Delivery without pommels
- Suits optionally with pommels (art. 2203100) or pommel pads (art. 1407071)

1403304

length of corpus: 136 cm

COMPETITION ACCESSORIES

ACCORDING TO FIG

- 1565872 Set of Landing mats "Moscow" for Parallel Bars or
- 1565873 Set of Landing mats "Basic" for Parallel Bars
- 1411704 Springboard "Moscow 5"
- 1389153 Magnesia stand "Munich"

Necessary only for warm-up and training:

- 1540510 Soft mat "Happy Landing" 200 x 200 x 10 cm

TECHNICAL DETAILS

- Height adjustable between 160 - 210 cm in 5 cm increments
- Competition height according to FIG Norm: Position 9
- Stepless width adjustment from 41 - 71 cm

INCL. "DYNAMOFLEX PRO" RAIL:

- Fiberglass rails with natural fiber veneer
- ready to use, provides an excellent grip already from the first use
- Pre-tensioning of rails for excellent dynamic characteristics
- Reduces magnesia consumption and shortens the preparation time
- Durable natural fiber veneer extends the lifespan of the rails even under high usage intensity
- It can be washed off with water
- Pre-drilled rails can be mounted easily

4145796

per piece

+ Easy height adjustment

+ Excellent grip and less preparation time

i

**RECOMMENDED:
EXCHANGE OF RAILS PER PAIR**

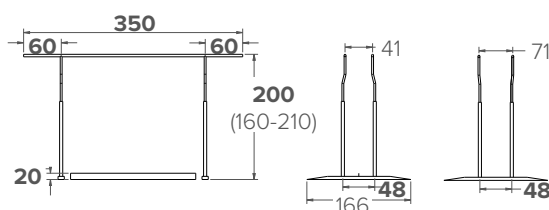

PARALLEL BARS

PARALLEL BARS "MELBOURNE PRO"

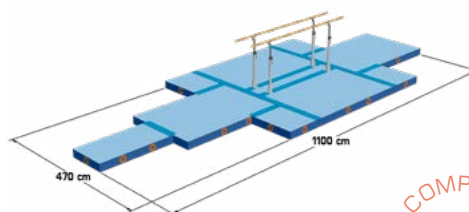

- **FIG certified, ORIGINAL REUTHER**
- Competition Parallel Bars "Melbourne Pro" with innovative "Dynamoflex Pro" fiberglass rails
- Optimal vertical dynamics for gymnastic elements between the rails and high horizontal stability for elements performed sideways on one rail
- **Dynamoflex Pro:** The unique pre-tension of rails offers gymnasts great dynamics for flight elements and simultaneously reduces impact forces of landings on the arms. The natural fiber veneer provides excellent grip even when new, reduces magnesium consumption, and shortens preparation time. Additionally, it extends the lifespan of the rail surface even under high usage intensity.
- Stepless width adjustment with measuring scale: Enables quick and repeatable individual adjustment of the Parallel Bars.
- (Optional) Integrated wheel system: The Parallel Bar can be placed on floor-friendly rubber wheels and moved to the desired position in just a few simple steps.

PARALLEL BARS TRAINING

PARALLEL BARS "JUNIOR"

- Parallel Bars "Junior" for training purposes, especially for schools and clubs
- Height adjustment from 105 - 165 cm in steps of 5 cm
- Infinitely variable width adjustment from 30 to 50 cm, specially adapted for children
- Plywood bars with a length of 280 cm, with pre-tensioning
- Version with integrated wheel system
- An center mat can be ordered as an option
- With base plate

1401160	height adjustable between 105 -165 cm
-------------------------	---------------------------------------

REMARK: Further options are available on request

PARALLEL BARS "MELBOURNE PRO" FOR LANDING PITS

- Competition Parallel Bars "Melbourne Pro" adapted for use at landing pits
- Stable steel frame especially constructed for use on the edge of pits

1760786	perfect for pits
-------------------------	------------------

POWER AND COORDINATION TRAINER

- Training aid to develop strength and coordination
- For use with Parallel Bars
- Stabilizes the spine
- Simulates basic core positions
- Strengthen shoulder and core muscles
- Wide belt with padding

1403224	per piece
-------------------------	-----------

PARALLEL BARS TRAINING

TRAINING BARS

- Original Reuther
- Foldable and space-saving
- Stepless width adjustment
- For methodical handstand training and gymnastics in schools
- Stable despite the low weight of apparatuses

A 1403404	low methodical bars, height 40 cm, length of rails 170 cm
B 1403408	high methodical bars, height 105 cm, length of rails 250 cm

FOAM BARS

- The foam bars consist of 4 detachable modules, which is great for learning new elements on Parallel Bars
- 2 large modules 160 x 58 x 100 cm
- 2 small modules 160 x 58 x 12 cm
- 1 stabilization unit 180 x 160 cm
- 1 safety mat 200 x 50 x 3 cm
- The maximum distance between the posts is 64 cm

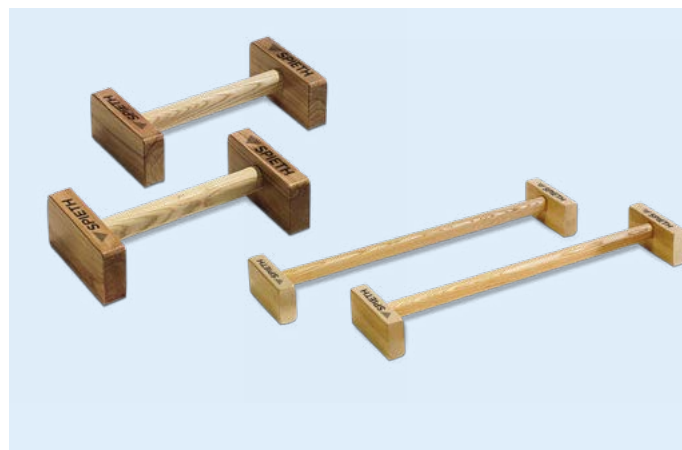

1556006	per piece
-------------------------	-----------

HANDSTAND TRAINING AIDS (WOODEN)

- Essential in every training center for handstand position practicing
- Easy to use at home
- Anti-slip base

1403151	per pair, length 40 cm
1403161	per pair, length 90 cm

PARALLEL BARS ACCESSORIES

“DYNAMOFLEX PRO” RAIL

- Fiberglass rails with natural fiber veneer
- Ready to use, provides excellent grip already from the first use
- Pre-tensioning of rails for excellent dynamic characteristics
- Reduces magnesia consumption and shortens the preparation time
- Durable natural fiber veneer extends the lifespan of the rails even under high usage intensity
- It can be washed off with water
- Pre-drilled rails can be mounted easily
- Exchange of rails recommended per pair

4145796	per piece (exchange of rails only per pair!)
-------------------------	--

WOOD RAIL

- Per piece
- Suitable for Parallel Bars “Senior” and “Junior”
- Rail made of multilayered glued wood
- It is recommended to exchange rails per pair

3129042	per piece, 280 cm for “Junior”
-------------------------	--------------------------------

3129043	per piece, 350 cm for “Senior”
-------------------------	--------------------------------

OVERVIEW PARALLEL BAR RAILS

WE RECOMMEND TO EXCHANGE PARALLEL BAR RAILS PER PAIR

PARALLEL BARS ACCESSORIES

CENTER MAT

- To cover the base frame of Parallel Bars

for competition models

A	2240585	300 x 70 x 20 cm	for "Melbourne (Pro)"
B	2240580	300 x 70 x 20 cm	for "Champion Stuttgart"

for „Club“ models

C	2240850	300 x 60 x 20 cm	for "Junior"
D	2240855	300 x 70 x 20 cm	for "Senior"

SPECIAL CENTER MAT FOR HEAVY USE AVAILABLE ON REQUEST.

TRANSPORT TROLLEY

To transport the Parallel Bars

- With large, sturdy castors
- 2 trolleys to hang on the front sides
- Suitable for Parallel Bars "Melbourne (Pro)" without integrated wheel system and "Champion Stuttgart"
- REMARK: The Parallel Bars "Melbourne Pro" is available with integrated wheel system – no transport trolley needed

1404016	per set
-------------------------	---------

ANTI-VIRUS PVC COVER PARALLEL BARS

- The new PVC technology with incorporated silver particles has the property to reduce viruses on the surface
- Covers the whole length of a rail
- Color: White

1490085	ca. 350 x 6 cm
-------------------------	----------------

PVC COVER PARALLEL BARS

- Covers the whole length of a rail
- Color: Blue

1490080	ca. 350 x 6 cm
-------------------------	----------------

PARALLEL BARS ACCESSORIES

METHODICAL BLOCK

- Foam block with PVC cover. Ideally suitable for training.

1540200	90 x 75 x 60 cm
1540205	120 x 120 x 80 cm
1540220	200 x 100 x 50 cm
1540221	200 x 100 x 100 cm

TRAINER SUPPORT

- Podest with hard foam and reinforced edges for a safe standing position
- Variable in use for coaches to stand on and for gymnasts to prepare the apparatus

1540225	50 x 50 x 50 cm according to FIG specifications
1540226	100 x 75 x 75 cm according to FIG specifications
1540188	75 x 45 x 60 cm

SAFETY CUSHION

- U-shaped safety padding for Parallel Bars, Uneven Bars and Horizontal Bar
- With a handle on the short side for quick and easy slide in and out
- Cover made of PVC
- Easy to attach with hook and loop tape
- Length 140 cm

1760301	length: 140 cm
-------------------------	----------------

PARALLEL BARS TRAINING PAD

- Thin padding that protects the athlete while practicing
- Blue PVC cover
- Fixation with hook and loop tape
- Length 140 cm (divisible in 2 parts each 70 cm - connectable via hook and loop tape)

1760306	length: 140 cm
-------------------------	----------------

HORIZONTAL BAR

COMPETITION ACCESSORIES

ACCORDING TO FIG

- 1565822 Set of Landing mats "Moscow" for Horizontal Bar
or
- 1565827 Set of Landing mats "Basic" for Horizontal Bar
- 1540226 Trainer support 100 x 75 x 75 cm
- 1540505 Soft mat "Happy Landing" (2x) 400 x 200 x 10 cm
- 1389153 Magnesia stand "Munich"

Necessary only for warm-up and training:

- 1540510 Soft mat "Happy Landing" 200 x 200 x 10 cm

TECHNICAL DETAILS

The break-proof Horizontal Bar rail is a worldwide-proven construction of SPIETH. It features a built-in steel cable that allows the Horizontal Bar to stay in consistent tension, even if the Horizontal Bar itself breaks down. Through experience, this very important feature became a safety criterion to avoid serious accidents.

INCL. BREAK-PROOF RAIL:

- Rail made of high-quality special stainless steel
- A worldwide unique construction of SPIETH which provides extra safety

[4140090](#)

length: 240 cm, diameter: 28 mm

+ Break-proof Horizontal Bar rail with built-in steel cable

HORIZONTAL BAR

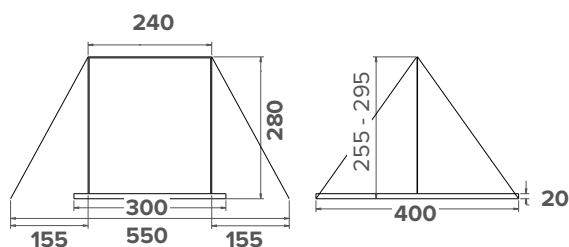

HORIZONTAL BAR "STUTTGART"

- **FIG certified, ORIGINAL REUTHER**
- Break-proof rail made of high-quality special stainless steel
- Excellent pre-tensioning on the bar
- Double tensioning provides excellent elasticity
- Reduces vibrations of rail by half
- Padding (art. 1566034) optionally available

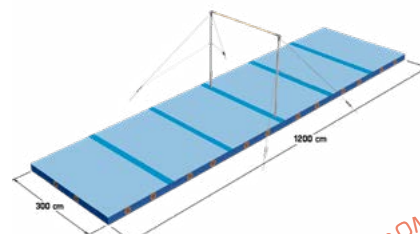

[1384214](#)

height adjustable between 265 - 310 cm

COMPETITION EQUIPMENT

HORIZONTAL BAR TRAINING

HORIZONTAL BAR "UNIVERSAL"

- Original Reuther
- Stainless steel rail
- With single tensioning
- Height adjustable between 160 - 280 cm in 5 cm increments

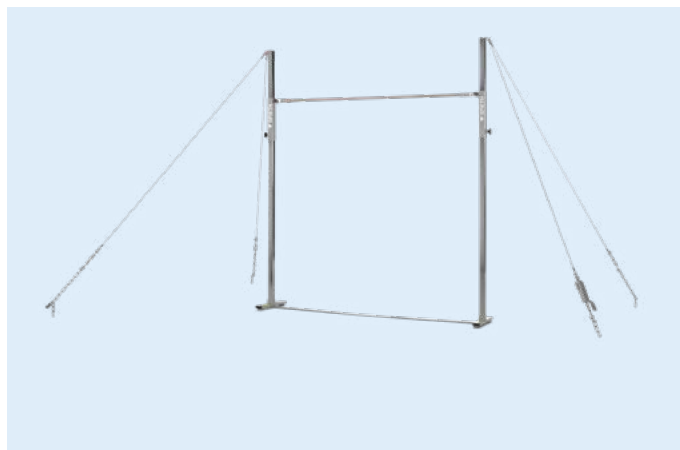

1384215	height adjustable between 160 - 280 cm in 5 cm increments
-------------------------	---

HORIZONTAL BAR "CLUB"

- Specially developed for training purposes
- The quick-lock system and fast tensioning devices enable an efficient height adjustment and a fast exchange of rails
- Height adjustable from 60 to 300 cm (60 to 220 cm per 10 cm increments, 220 to 300 cm per 5 cm increments)
- Compatible with Uneven Bars rail "Club" (art. 2202205 or art. 2204825)
- More stability thanks to a new base

1384094	height adjustable between 60 - 300 cm
-------------------------	---------------------------------------

METHODICAL HORIZONTAL BAR

- Training horizontal bar without tensioning system
- Quick height adjustment from 45 - 200 cm. The rail can be replaced by an Uneven Bars rail (art. 2202205)
- For permanent installation in training halls by fixing directly to the hall floor. The suitable fixing material must be checked and ordered separately.
- It is particularly suitable for children. It's not ideal for use in high-level gymnastics!
- Total width: 244 cm

1384224	height adjustable between 45 - 200 cm
-------------------------	---------------------------------------

HORIZONTAL BAR SUPPORTS

- Two posts with wide support area for Horizontal Bar rail "Club" or Uneven Bars rail "Club", 40 cm high
- With quick-lock system for quick exchange of rails
- Sturdy and wide stand and anti-slip rubber bottom
- Suitable for methodical training
- Delivery without rail

1384080	40 cm high
-------------------------	------------

suitable with

HORIZONTAL BAR ACCESSORIES

TCS-TENSION CONTROL SYSTEM

- FIG certified
- For tensioned apparatuses: Uneven Bars, Horizontal Bar, Rings
- Prevention of too low or too high tensioning thanks to the tensioning measuring device with an easy-to-read digital display
- When tensioning becomes too low or too high, it is indicated by a flashing light signal
- Per tensioned gymnastic apparatus is one tensioning control system necessary

length 140 cm

FREESTANDING CONSTRUCTION - HORIZONTAL BAR

With our freestanding construction, gymnastics apparatuses can be anchored in places where anchoring is impossible. The apparatus is anchored on a steel frame with four arms and weights on each end.

This freestanding construction is suitable for the apparatuses Uneven Bars, Still Rings, and Horizontal Bar, only different amounts of weights are necessary.

For one freestanding construction a base area of around 7.5 x 6 m is necessary.

Please request the required individual amount of weights separately.

Freestanding Construction - Horizontal Bar

SPRINGBOARDS

SPRINGBOARD "MOSCOW 8"

- **FIG certified, ORIGINAL REUTHER**
- Competition springboard, **hard version**
- Equipped with revolutionary "Whisper Spring System"
- Improved dynamic characteristics in the lower rebound area
- 8 conical tempered steel springs
- Surface made of hybrid carbon fiber sandwich construction
- Cover made of 22 mm special foam and hard-wearing needle-felt
- Suitable for body weight between 50 - 100 kg

COMPETITION MATS

COMPETITION MAT "MOSCOW"

- **FIG certified, ORIGINAL REUTHER**
- New development in sandwich construction with a core combined of polyether and polyethylene foam
- Additional edge stabilization
- Durable velour surface in spiethblue color
- Cover made of textile-reinforced PVC material
- Patented handgrips at the sides for easy moving and handling
- Hand grips provide air circulation and optimal damping during landings
- Special latticed polyester material integrated between foam layers for durability
- Edge stabilization on all sides for safety and extended mat durability
- Mats supplied with washable anti-slip Bisonsyl bottom
- Mat cover with sewn-on hook and loop tape on all sides for a complete landing area when mats are fixed together
- Covering strips available to avoid gaps between mats, matching the velour part of the set

"MOSCOW"

TECHNICAL DETAILS:

Handy grips are not only handy. The grips have a tear resistance 6 times higher than regular mat grips. The air regulation capabilities of the grips come from the combination of the air tunnels in the foam and the netting of the handy grips. The special netting allows air to flow out freely but, at the same time, prevents dust from coming inside the foam, thus increasing the lifetime of the mat.

COMPETITION MAT "BASIC"

- **FIG certified, ORIGINAL REUTHER**
- FIG certified entry-level model without carpet cover
- Complete with PVC cover
- Otherwise, the same features as the landing mat "Moscow"
- Also available as mat sets for all current SPIETH equipment

SET OF LANDING MATS HORIZONTAL BAR

- Total dimension: 1200 x 300 x 20 cm
- Consisting of:
 - 4 landing mats 300 x 200 x 20 cm
 - 2 landing mats 300 x 200 x 20 cm with cutouts

1565822	"Moscow"
1565827	"Basic"

LIGHT GYMNASTICS MAT “GYM & FUN”

- Ideal for use in schools and club
- It can be used individually for warm-up exercises and stretching
- It is connectable with further mats thanks to the connection straps
- Anti-slip material at the bottom
- Reinforced corners
- PVC cover

1555999	200 x 100 x 6 cm
-------------------------	------------------

GYMNASTICS MAT “GYM & FUN”

- This foldable gymnastics mat is easy to set up in 50 cm sections and space-saving to store
- With its height of 4 cm, it is particularly suitable for warm-up and stretching exercises
- Anti-slip-material
- PVC cover

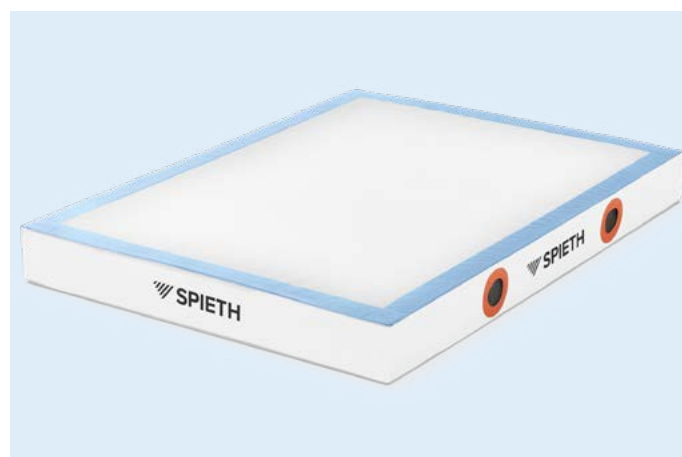

1556000	300 x 200 x 4 cm
-------------------------	------------------

ANTI-VIRUS PVC-LANDING MAT “BASIC”

- Same features like regular Competition Landing Mat “Basic” but with white PVC
- The new PVC technology with incorporated silver particles has the property to reduce viruses on the surface

2241007	300 x 200 x 20 cm
-------------------------	-------------------

LANDING MAT “HAPPY LANDING” ANTI-VIRUS

- Completely covered with white Anti-Virus PVC
- Characteristics are the same as the regular “Happy Landing” mats
- “Happy Landing” 400 x 200 x 10 cm

1540525	400 x 200 x 10 cm
-------------------------	-------------------

LANDING MAT "HAPPY LANDING" - WITH CANVAS COVER

- Mat with PVC cover and comfortable elastic canvas cover on top
- Use for training purposes only

[1540511](#)

200 x 200 x 10 cm

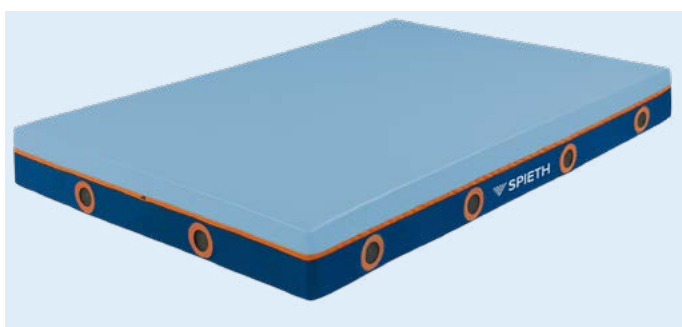

SAFETY SPOTTER MAT "HAPPY LANDING"

- Soft filling and comfortable soft cover made of comfortable fabric
- Particularly suitable for spotting flight elements on Uneven Bars and Horizontal Bar
- Two handles on the short side of the mats allow a fast slide in and out during flight elements

[1540509](#)

200 x 100 x 12 cm

SOFT MAT

- Soft landing mat with PVC cover and zipper
- Build with foam in different degrees of hardness
- With 12 round handy grips for carrying and, at the same time, ventilation of the mat

[1572099](#)

300 x 200 x 30 cm

FOLDABLE MULTI PURPOSE MAT

- This mat can either be positioned folded or unfolded underneath gymnastics apparatuses
- 8 carrying handles
- Dimension folded: 200 x 200 x 40 cm
- Made of polyurethane foam and PVC cover with fire protection class M2
- Equipped with ventilation openings at the sides and a zipper
- Anti-slip at the bottom side

[1556004](#)

400 x 200 x 20 cm

MULTI PURPOSE MAT

- Ideal for use in p.e. lessons in schools and clubs
- The mat is suitable for practicing landings and as safety mat during training at Balance Beam and bars
- 4 carrying straps for easy transport
- Made of polyurethane foam
- PVC cover with fire protection class M2
- Equipped with ventilation openings at the sides and a zipper
- Anti-slip at bottom slide

[1556005](#)

300 x 200 x 20 cm

EXTRA SOFT CRASH MAT

Same basic structure as a landing pit, with foam beams and air pockets. Ideal for sports halls without a landing pit and to create a higher landing level. This construction enables easy handling. With anti-slip at the bottom side and round handy grips at the side parts for an improved ventilation.

This mat is available with stretch or PVC cover.

1569606	350 x 200 x 70 cm	Stretch cover
1569601	200 x 150 x 70 cm	Stretch cover
1569626	350 x 200 x 70 cm	PVC cover
1569621	200 x 100 x 70 cm	PVC cover

LANDING BLOCK WITH FABRIC COVER

This mat is made of high-quality, soft foam. Thanks to sewed straps and buckles, the landing area can be extended by connecting multiple mats. The cover is made of soft fabric, matching the cover of SPIETH closed pit.

- 4 carry handles for easy transport
- Net grid for ventilation
- Anti-slip at the bottom side
- Foam block
- With fabric cover

1569610	200 x 100 x 50 cm
-------------------------	-------------------

LANDING BLOCK WITH PVC COVER

This mat is made of a high-quality, soft foam. Thanks to sewed straps and buckles the landing area can be extended by connecting multiple mats. 2 landing mats 300 x 200 x 20 cm

- 4 carry handles for easy transport
- Net grid for ventilation
- Anti-slip at bottom side
- Foam block
- PVC cover

1569630	200 x 100 x 50 cm
-------------------------	-------------------

AIRBAGS

AIRBAG

The Airbag is easily transportable and allows gymnasts to create a dynamic and realistic landing platform for any discipline anywhere. It is an impact-attenuating airbag designed for simultaneous landings. This portable, easy-to-store solution can be set up in minutes, allowing gymnasts to train anywhere they like. It features adjustable pressure valves for different training scenarios and no in-ground pit is needed. The Airbags are available in 3 sizes (S, M, L). For size L you can choose between two covers (with or without vault marking lines). All Airbags are internationally certified for safety and quality by TÜV Süd.

AIRBAG S

- Set up in one minute
- Quiet blower
- Adjustable pressure
- Easy and portable
- Incl. blower, maintenance kit, and anchoring system

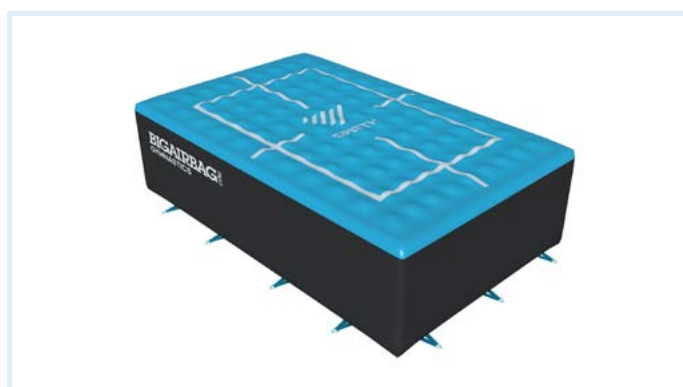

1745001	400 x 250 x 95 cm
---------	-------------------

AIRBAG M

- Set up in one minute
- Quiet blower
- Adjustable pressure
- Easy and portable
- Incl. blower, maintenance kit, and anchoring system

1745006	520 x 320 x 95 cm
---------	-------------------

AIRBAG L

- Set up in one minute
- Quiet blower
- Adjustable pressure
- Easy and portable
- Incl. blower, maintenance kit, and anchoring system

1745011	A 600x 400 x 95 cm
1745012	B 600 x 400 x 95 cm with vault lines

COMPETITION PODIUM

COMPETITION PODIUM

- This competition podium has been featured at numerous international championships and is recognized by the International Gymnastics Federation (FIG)
- Modern and solid
- According to the FIG-Specifications
- Constructed of modular single steel frames (200 x 100 cm)
- Equipped with stairs and anchor points for counterweights
- Ca. 1096 m² total area for one gymnastics competition
- Dimensions are individually adaptable according to competition needs
- Ideally suited for TV broadcasts, ideal presentation of athletes
- Greater equipment elasticity
- The podium is suitable for other sports events as well
- Standard height 80 cm – optionally also available in 60 cm height

METHODICAL EQUIPMENT

BELT

Belt for longes and Fifty-Fifty equipment (art. 1403250) without ring 22 - 32 cm, Ø adjustable between 65 - 90 cm

- Without metal ring
- Nylon webbing with wide comfortable padding
- 2 removable leg straps

1760330	Belt ø 65 - 90 cm, 22 - 32 cm
-------------------------	-------------------------------

SOMERSAULT BELT

- Rotating in the transversal axis
- Smooth ball bearings
- Wide belt with quick fastener
- 2 removable leg straps

1760320	Junior belt ø 30 cm, 55 - 80 cm
1760321	Senior belt ø 38 cm, 80 - 110 cm

TWISTING SOMERSAULT BELT

- Rotating in both axes
- Smooth ball bearings
- Wide belt with quick fastener
- 2 removable leg straps

1760325	Junior belt ø 30 cm, 55 - 80 cm
1760326	Senior belt ø 38 cm, 80 - 108 cm

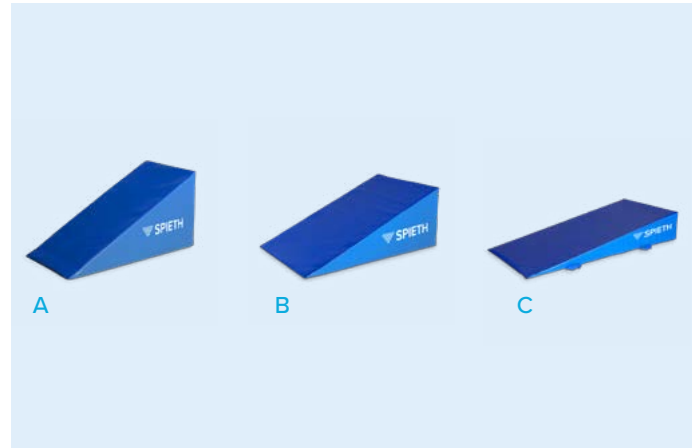

METHODICAL EQUIPMENT

INCLINE

- Particularly suitable for gymnastics training in schools and clubs
- Developed to learn to roll forward and backward without fear and with fun
- Available in 3 different sizes
- With PVC cover
- Includes carrying handles for easy transport

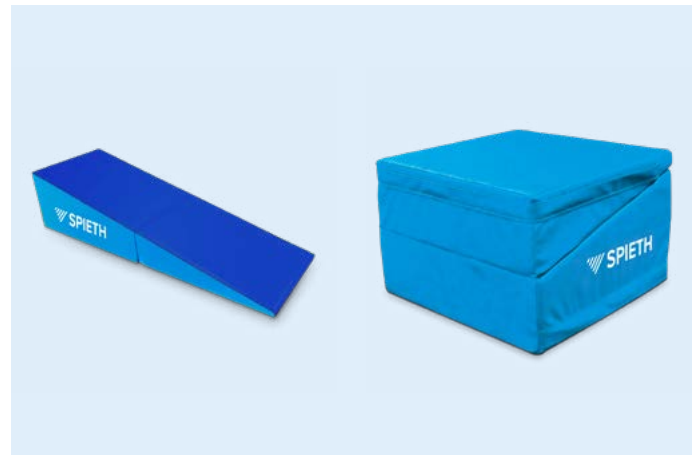

1556003	A 100 x 50 x 50 cm
1556002	B 150 x 100 x 60 cm
1556001	C 200 x 100 x 35 cm

FOLDABLE INCLINE

- Unfolded usable as incline
- Folded usable as rectangle block
- With PVC cover

1555997	200 x 70 x 48 cm (unfolded) 100 x 70 x 53 cm (folded)
-------------------------	--

2-PART VAULTING BOX SOFT

- Soft Vaulting Box consisting of 2 elements
- Anti-slip-material on the bottom side
- Dimensions upper module: 160x80x20 cm
- Dimensions lower module: 160x80x100 cm
- With 2 carrying handles

1555998	with PVC cover
-------------------------	----------------

METHODICAL BLOCK

- Foam block with PVC cover
- Ideal for methodical training

1540200	60 x 75 x 90 cm
1540205	120 x 120 x 80 cm
1540210	120 x 60 x 60 cm
1540215	100 x 100 x 80 cm
1540220	200 x 100 x 50 cm
1540221	200 x 100 x 100 cm

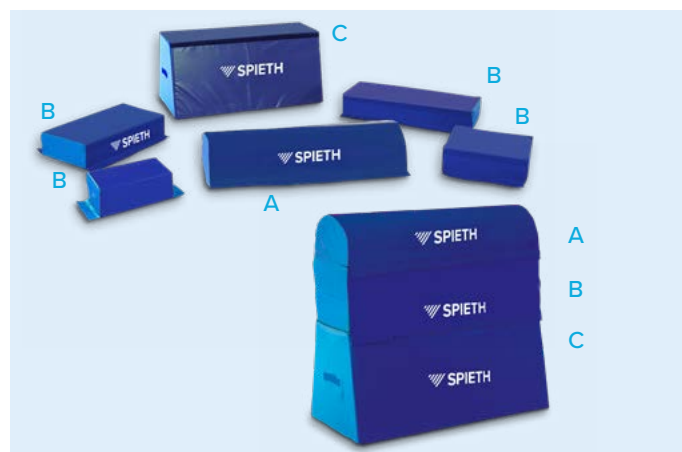

METHODICAL EQUIPMENT

VARIABLE VAULTING BOX SOFT

- Soft Vaulting Box consisting of 6 elements
- The modules are connected with hook and loop tape; therefore, an individual, multiple use of the elements is easily possible
- Including carrying handles
- PVC cover, anti-slip material at the bottom side
- Possible heights: 70, 90, 100, 110, 120 and 140 cm
- Consisting of the following modules:
 - **A** Rounded module: 150x50x30 cm
 - **B** Intermediate module
 - 120 x 50 x 20 cm
 - 90 x 50 x 20 cm
 - 60 x 50 x 20 cm
 - 30 x 50 x 20 cm
 - **C** Base module: 150 x 80/50 x 70 cm (L x W x H)

[1555996](#)

per box

TRAPEZOID BOX SOFT

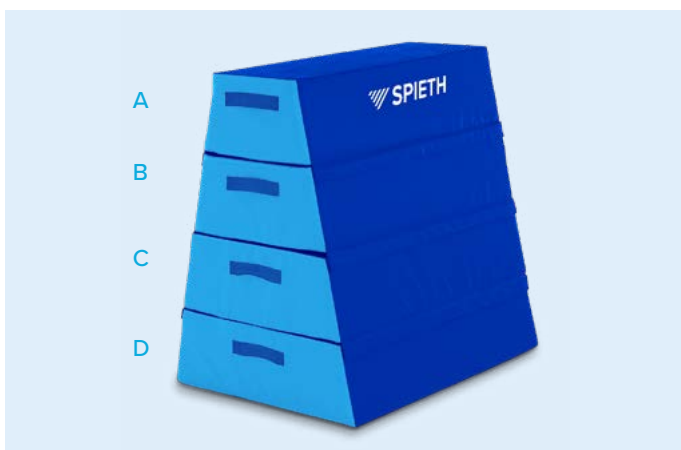

A large trapezoidal Vaulting Box made of foam supports the learning process of jumping over obstacles. It consists of four modules connected by hook-and-loop tape, and therefore, a simple height adjustment is possible.

Each section consists of dual-density foam, in which a harder area at the top ensures stability.

- Including carrying handles
- PVC cover, anti-slip material at the bottom side
- Possible heights: 30, 60, 90 and 120 cm
- Height of one module: 30 cm
- Different dimensions of modules (LxWxH):
 - **A** 120 x 52.50 / 40 x 30 cm
 - **B** 120 x 65 / 52.50 x 30 cm
 - **C** 120 x 77.50 / 65 x 30 cm
 - **D** 120 x 90 / 77.50 x 30 cm

[1555995](#)

per box

TRAINER SUPPORT

- Podest with hard foam and reinforced edges for a safe standing position
- Variable in use for coaches to stand on and for gymnasts to prepare the apparatus

[1540225](#)

50 x 50 x 50 cm
according to FIG-Specifications

[1540226](#)

100 x 75 x 75 cm
according to FIG-Specifications

[1540188](#)

75 x 45 x 60 cm

METHODICAL EQUIPMENT

FLIC-FLAC-TRAINER

- Elliptic methodical training aid made of special lightweight foam
- To learn roll-over elements without fear
- Independent training without a coach
- Eases the assistance for coaches
- Optional: the flic-flac-trainer can be connected with the stabilizer

1540350	small, 78 x 50 x 65 cm
1540351	medium, 100 x 70 x 87 cm
1540352	large, 116 x 80 x 99 cm

STABILIZER FLIC-FLAC-TRAINER

- With this stabilizer, the flic-flac-trainer can be stabilized and turned into a fixed object that can be used e.g. for jumping over
- The stabilizer is, according to the flic-flac-trainer, available in 3 different sizes

1540355	small, 78 x 50 cm
1540356	medium, 95 x 70 cm
1540357	large, 104 x 80 cm

HALF MOON

- Training aid for strength training and stretching
- Ideal for stretching and strengthening the abdominal muscles
- Can be attached to wall bars with hook and loop tape

1540370	90 x 50 x 39 cm
-------------------------	-----------------

METHODICAL EQUIPMENT

METHODICAL ROLL

- Made of foam with a synthetic leather cover
- 100 cm long, diameter 69 cm

[1540360](#)

per piece

METHODICAL ROLL WITH FIXATION

- This role is identical to the methodical roll but is also equipped with an incline (fixed with hook-and-loop tape)
- It stands still automatically after one turn

[1540361](#)

Methodical roll with fixation

FOAM SPRINGBOARD

- Made of foam with a synthetic leather cover
- Shape of a springboard

[1540390](#)

80 x 50 x 20 cm

FLOOR ANCHORS

Several floor anchor types for different types of flooring are available upon request.

Please consult our Sales Team with your requests.

AIR ASSORTMENT

AIRTRACK "MAXIMUM"

- Thanks to bonded and sealed seams the Airtrack "Maximum" is sturdy and durable
- The special construction inside ensures stability and a good rebound
- A versatile, flat track - ideal for using in clubs, schools and kindergarten
- For different methodical training: 1 line at upper side, 2 lines at bottom side
- Inclusive blower and manometer

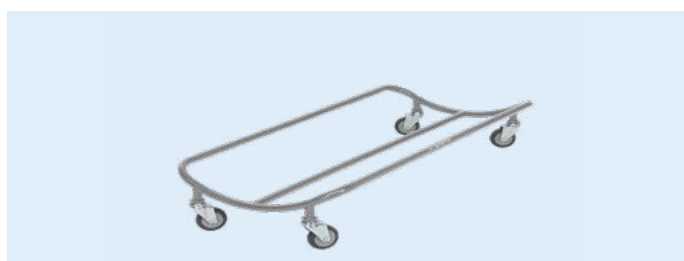

1740124	dimension: 15 x 2 x 0.2 m
1740125	dimension: 15 x 2 x 0.3 m
1740123	dimension: 12 x 2 x 0.15 m
1740120	dimension: 10 x 2 x 0.1 m
1740121	dimension: 10 x 2 x 0.2 m
1740122	dimension: 10 x 2 x 0.3 m

Other dimensions are available on request

i

ASSORTMENT DETAILS: AIRPRODUCTS

- Inflated within a short time, with adjustable pressure
- Reduced impacts on joints, so athletes can practice more often
- Suitable for beginners and top gymnasts
- With lines for a better orientation and as a help in methodical training (except Aircylinder)
- Bottom side with anti-slip material (except Airtracks, Airfloor long + Aircylinder)
- At short sides connectable with hook and loop tape (except Aircylinder and Airbeam, for Airspot only at center line)
- Inclusive transport/ storage bag and repair set
- Blower must be ordered separately (not for Airtracks)

TRANSPORT TROLLEY

Sturdy transport trolley for "Airtrack Maximum"

- Suitable for one Airtrack
- 4 castors
- Easy to handle

1590566	per piece
-------------------------	-----------

MINI-BLOWER AIR ASSORTMENT

- Compact blower for Air Assortment
- Rapid inflation and deflation
- Easy to transport
- Fitted with a thermal cut-out

1740250	230 V / 1000 W (EU)
1740251	120 V / 1000 W (USA)

AIR ASSORTMENT

AIRBOARD

- Practical alternative to springboards
- Connectable to springboard via connecting straps (inclusive)

1740126	dimension: 120 x 60 x 10 cm
1740145	dimension: 100 x 40 x 10 cm
1740146	dimension: 100 x 40 x 20 cm
1740147	dimension: 100 x 60 x 20 cm

AIRSQUARE

Comfortable training for jumps

1740127	dimension: 100 x 100 x 10 cm
1740128	dimension: 100 x 100 x 20 cm

AIRINCLINE

- Comfortable training for jumps, can be used as a springboard e.g. for Uneven Bars, Parallel Bars or Vaulting Table
- For easy learning of rolling forwards/ backwards

1740134	dimension: 120 x 90 x 30 - 10 cm
1740135	dimension: 180 x 120 x 30 - 20 cm
1740136	dimension: 180 x 120 x 65 - 20 cm

AIRFLOOR SHORT

- Training aid for e.g. exercises on Balance Beam or floor
- Including connecting straps

1740129	dimension: 200 x 100 x 10 cm
1740130	dimension: 200 x 100 x 20 cm

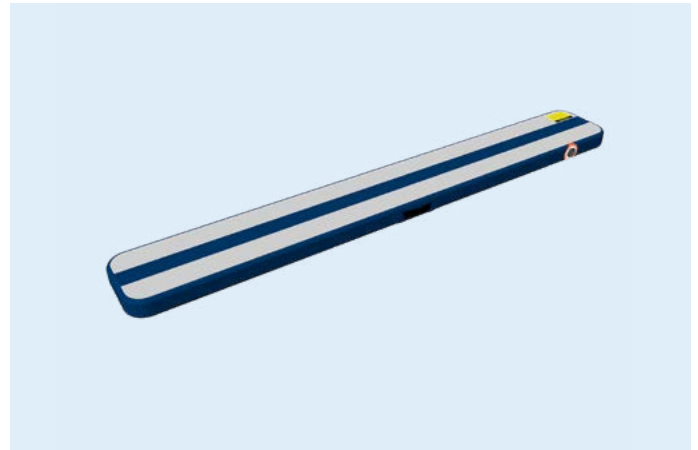

AIR ASSORTMENT

AIRBEAM

Centerline is 10 cm wide (corresponding with the width of a competition Balance Beam)

1740139	dimension: 300 x 40 x 10 cm
1740140	dimension: 500 x 40 x 10 cm

AIRSPOT

For easy learning of jumping elements

1740137	dimension: ø 100 x 10 cm
1740138	dimension: ø 150 x 10 cm

AIRINCLINE

- Comfortable training for jumps, can be used as a springboard e.g. for Uneven Bars, Parallel Bars or Vaulting Table
- For easy learning of rolling forward and backward

1740134	dimension: 120 x 90 x 30 - 10 cm
1740135	dimension: 180 x 120 x 30 - 20 cm
1740136	dimension: 180 x 120 x 65 - 20 cm

AIRCYLINDER

- For easy learning of several acrobatic skills

1740141	dimension: ø 80 x 120 cm
-------------------------	--------------------------

i

FOR AIR ASSORTMENT:
Blower must be ordered separately
(not for airtracks)

AIR ASSORTMENT

AIRFLOOR SHORT

- Training aid for e.g. exercises on Balance Beam or floor
- Including connecting straps

1740129	dimension: 200 x 100 x 10 cm
1740130	dimension: 200 x 100 x 20 cm

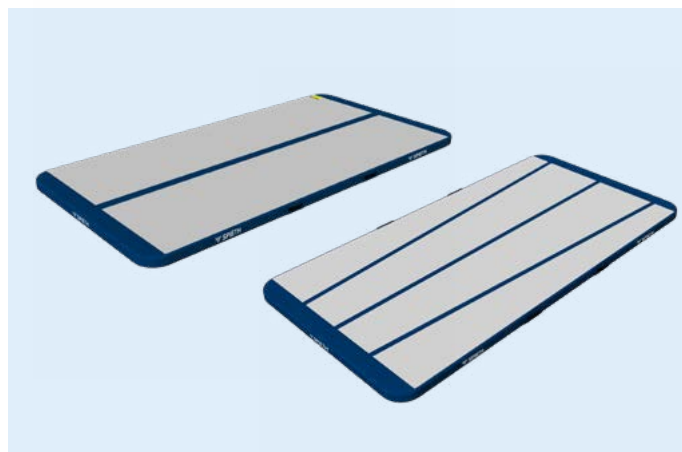

AIRFLOOR LONG

Training aid for e.g. exercises on Balance Beam or floor with blue lines for better orientation: one side with 3 lines (like landing mat of Vault) and other side with 1 line

1740131	dimension: 400 x 200 x 10 cm
1740132	dimension: 400 x 200 x 20 cm
1740133	dimension: 600 x 200 x 10 cm
1740142*	dimension: 300 x 100 x 10 cm
1740143*	dimension: 400 x 100 x 10 cm
1740144*	dimension: 500 x 100 x 10 cm

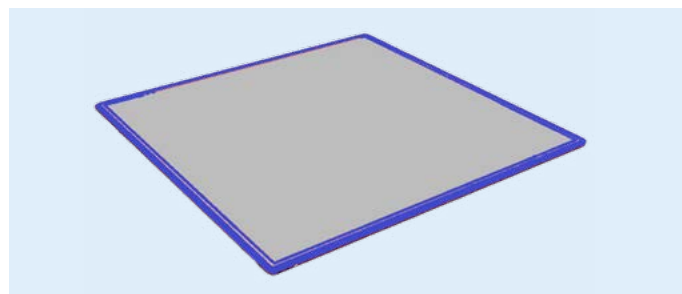

*without 3 lines for Vault landing area at the second side

AIRFLOOR AREA

- Functional competition floor for gymnastics, cheerleading and artistic gymnastics
- White 6 cm wide PVC marking on the top
- Including blower set

1740300	dimension: 1400 x 1400 x 20 cm
1740305	dimension: 1260 x 1260 x 20 cm

MANOMETER

- Digital pressure device and adapter for airtrack and air products
- Automatic pressure regulation
- Battery not included

1740255	for air assortment
-------------------------	--------------------

CONNECTION KIT

- To connect 2 air products
- Hook and loop tape, covered with PVC
- 2 strips of 85x23 cm and 1 strip of 180x23 cm
- 2 connecting straps (length 200cm) for e.g. fixing the Airboard to a spring-board or Vaulting Table

1740590	per set
-------------------------	---------

REPAIR SET

To repair small damages to airtracks or air products (airmats).

1740280	per set
-------------------------	---------

SIMONE BILES

BEAM PACKAGE

The Beam package is a handy combo package for home use. It is great for basic training at beam. The package includes the following Simone Biles Signature Products:

- Practice beam "Home" (ca. 244x10 cm, height 20 cm)
- Foldable panel mat small (ca. 183 x 122 x 3.5 cm)
- Multi-functional mat (ca. 100 x 140 x 1.9 cm)

1403808

per package

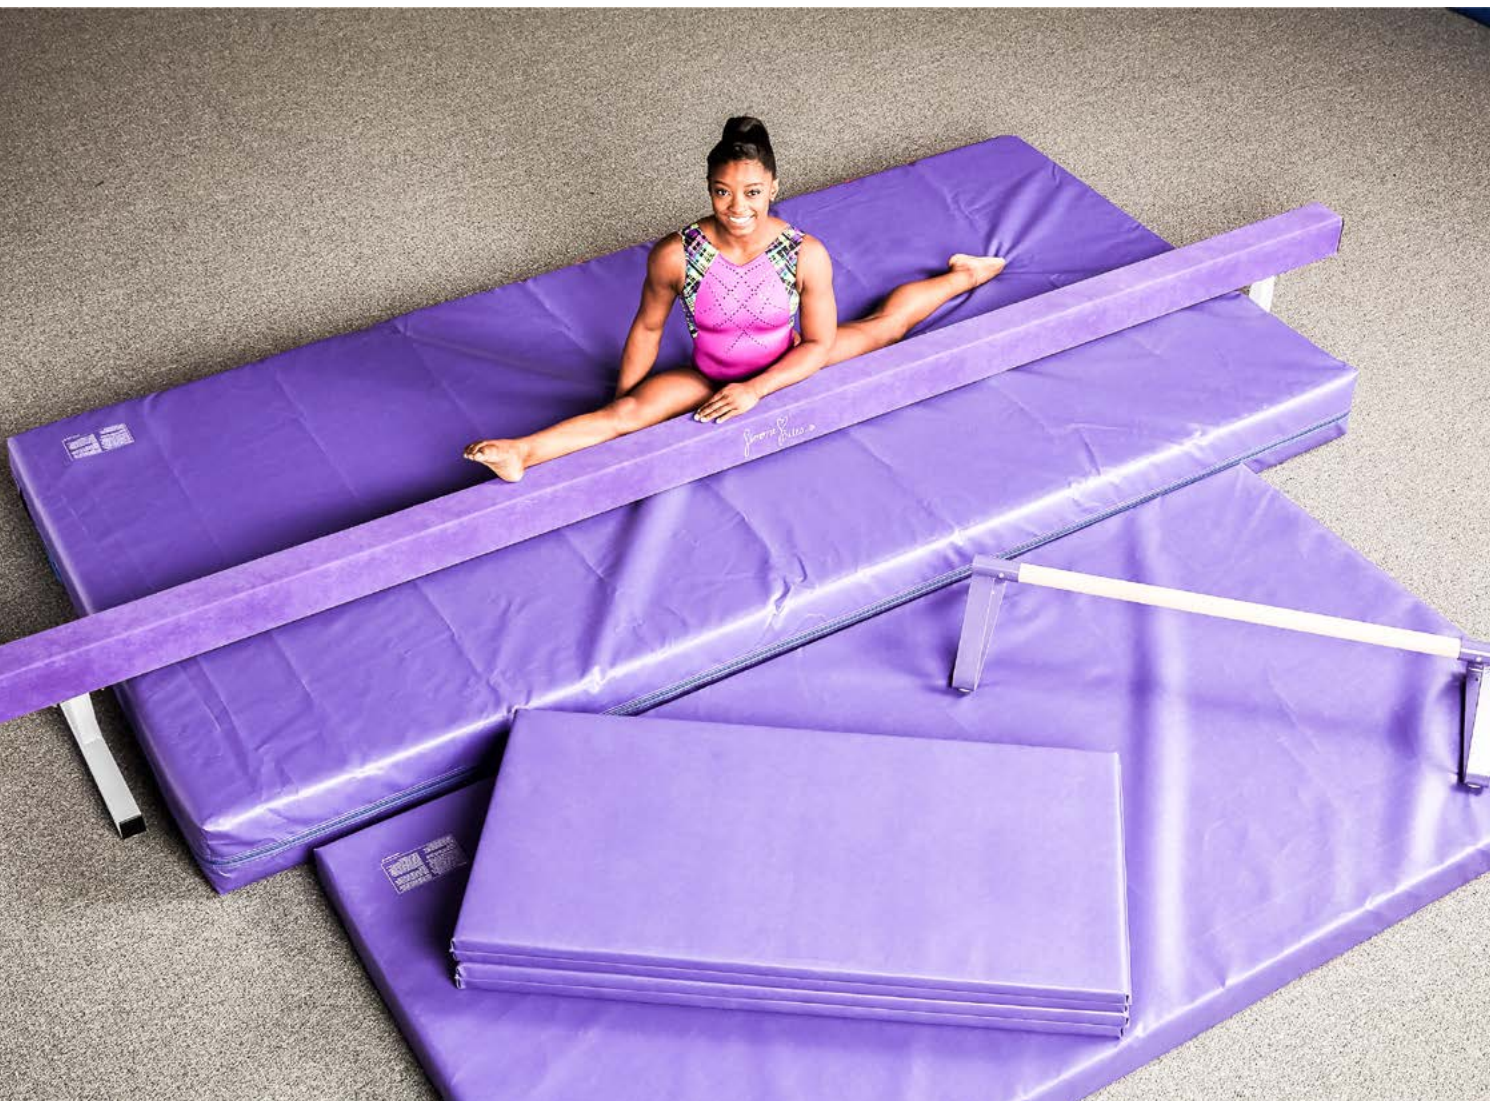

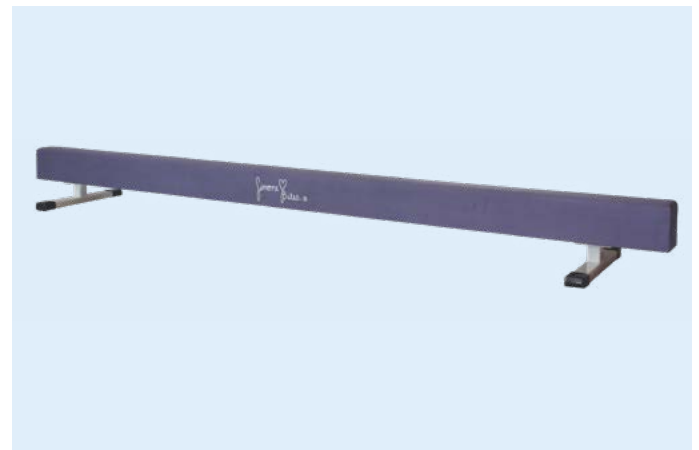

PRACTICE BEAM - "HOME"

- The beam consists of plywood and foam
- The cover is made of high-quality synthetic suede, which allows good grip
- The feet are made of powder-coated steel with rubber end caps to protect the ground

1403803

dimension: 244 x 10 cm, height: ca. 20 cm

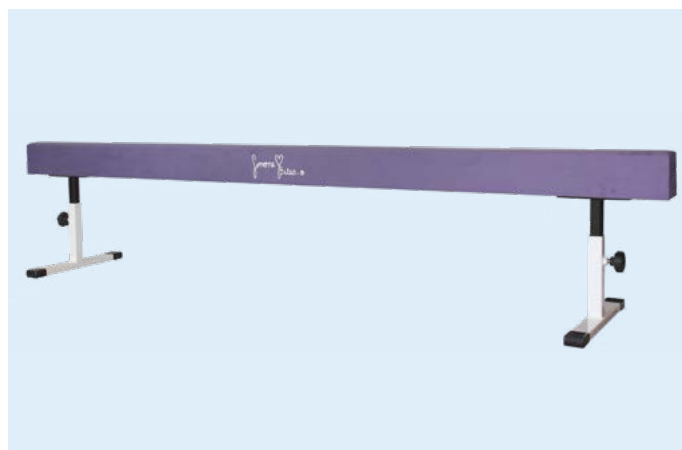

SIMONE BILES

PRACTICE BEAM - "HOME" HEIGHT ADJUSTABLE

- The Simone Biles Balance Beam "Home" is height adjustable and allows a slow adaptation to the high beam
- The beam is high enough so that mats can easily be placed underneath
- Height adjustable 30 cm - 45 cm

1403804

dimension: 244 x 10 cm

FOLDABLE PANEL MAT SMALL

- The foldable mat is ideally suitable for sports, yoga and stretching exercises at home
- Hook and loop strips at each end allow the connection of additional mats

1403805

dimension: 183 x 122 x 3.5 cm

MULTI FUNCTIONAL MAT

- The Multifunctional mat is a universal soft safety mat for gymnastics with a high level of shock absorption
- Especially suitable on Balance Beam and Uneven Bars

1403807

dimension: 100 x 140 x 1.9 cm

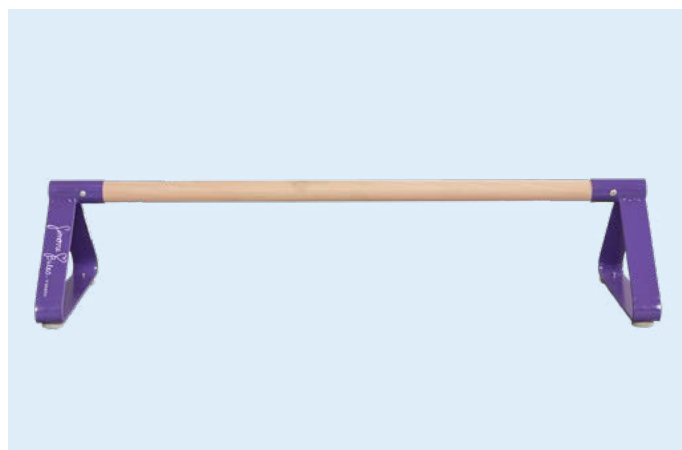

PORTABLE PIROUETTE BAR

The portable pirouette bar is great for practicing turns and hand-stands and to get prepared for the Uneven Bars

1403802

dimension: 111 x 24.5 cm
